

Coaching Program Warning Label

Read and understand the label below.

A previous participant of this program has warned that this material may be hazardous to your complacency. This program should be used only by those who are ready to get out of their comfort zone and grow exponentially. Failure to heed these warnings could result in dropped assumptions, purposeful living, and a clearer vision. Do not mix this program with alcohol, as the excitement you'll get from defining your purpose will counteract the dulling effects of the alcohol. Do not expose yourself to direct sunlight while using this program. The brightness of the sun, when coupled with the intensity of the vision you create, could cause spontaneous fulfillment.

The coach dispensing this program accepts full responsibility for supporting you. However, we are not responsible for any problems resulting from increased energy and other effects of abundance in your life. Studies have shown that these are a natural and expected result of living purposefully.
