

# Should You Be A Coach?

Coaching is not for everyone, but it may be for you. Coaching is becoming a popular profession. Business consultants, therapists, teachers, entrepreneurs, trainers, and other advisors find the quality of work and clientele appealing enough to invest in the training and time required for this. Figure it to take about 5 years to become a master coach, but a number of entrants earn 6-figures by the end of year 2, so they must be doing something right! But take this little quiz to see if coaching is the right profession for you. (If not, perhaps you will enjoy it as a hobby or opportunity to contribute to others.)

Check the box which most applies. Then score yourself using the key at the end of the test.
