The planet wakes.

Atalant is torn between two worlds. In uncharted space, head of a sentient planet, the new eld of Ardulum now leads the religion she once rejected. Emn is by her side but the Mmnuggl war brewing in the Charted Systems, threatening her homeworld of Neek, cannot be ignored. Atalant must return to the planet that exiled her in order to lead the resistance. She must return home a god, a hypocrite, a liar in gold robes, and decide whether to thrust her unwilling people into the truth of Ardulum, or play the role she has been handed and never see her family, or her world, again.
