It's (very) hot fun in the summertime for recent high school grad Cindy St. James, who blossoms from embarrassed virgin to emboldened vixen when she goes on the run with a fugitive porn star. This outrageously indecent X-rated odyssey is the only erotic novel written by James Dawson, who has penned hundreds of salacious short stories for more than two dozen men's magazines.

Although a drastically condensed serialized version saw print two decades ago, the book-length "Beach Bitch" hibernated unheralded on a hard drive until 2013. That's when what started out as a frisky 41,000-word foray was extended into a flagrantly filthy 57,000-word fantasy, by the author Penthouse Letters has said is "considered by many to be the greatest writer of his generation."

This Erotica Collections edition includes the thoroughly remastered and "re-tooled" novel, the original manuscript versions of the four serialized installments and a new introduction.
