[DOWNLOAD FULL EBOOK PDF]

If employees are not being successful, then something must be missing. If they could have, i.e. if they had all the resources, training, and time needed, they already would have been successful. They would have done the job correctly, in a timely manner, and in accordance with the highest standards, while meeting all criteria of success. People want to be successful! Leaders own discovering what is missing. This book provides tools and techniques developed over decades of practical application in the military and in civilian industries.
