Brandi thought her life was over the day the doctor told her she was dying; nothing mattered now. That's when she met Jabari. He walked into her life taking care of her and treating her like a queen. Before she knew it, they were running from a creature that he called a firebird. Now there was no telling what would happen, but she was going to hold on with both hands and enjoy the ride.

Jabari was never supposed to meet his mate, but if he did; she shouldn't die before him. All bets were off because Brandi was dying, and he was too broken to save her. That meant all he could do was show her the world while they were together because one day he would wake up too broken to move again.

When the firebird attacked, Jabari realized that someone was targeting Brandi. Now he had two clear orders. One, protect and love his mate until she took her final breath. Two, kill whoever was after her and take his last breath. Love was never meant to be forever; or was it?
