Bright Fields is a comprehensive and deeply intimate exploration of the life and work of Mississippi-born artist Marie Hull (1890-1980). Her paintings reflect a nine-decade journey of search, thought, and growth. She produced some of the most memorable and iconic works ever created by a southern artist. This elegant and exquisitely detailed book contains over two hundred newly photographed reproductions of the artist's finest works, many never before seen by the public.

Hull was born in a small town near Jackson at a time when women were not allowed to vote and were denied many career opportunities. This did not deter Hull from a constant search for quality, both in her life and in her art. She studied with some of the most important artists of her day, including William Merritt Chase, in Philadelphia, New York, and Europe. She won major national competitions and awards and was exhibited in some of the world's most prestigious art exhibitions and shows in the United States, Europe, and East Asia.

During the Depression, Hull created a series of paintings depicting African Americans and local sharecroppers that is considered one of the most significant contributions to regionalist art in the country's history. These important, deeply moving works place her among the forefront of the great American portraitists. Three decades later, in her seventies, Hull would reveal her remarkable ability to evolve again, this time into one of the most significant abstract painters of the South. In her powerful, brilliantly colorful late works, she combines her mastery of landscape painting with a unique, persuasive synthesis of ideas from such artists as Mark Rothko, Willem de Kooning, and Hans Hofmann.

Today, Hull's works are exhibited in museums and prestigious private collections throughout the country. *Bright Fields* expands our knowledge of the painter's remarkable life and work, illustrating why Hull's unique vision and tremendous creativity had, and continues to have, such a profound impact on art in the South and beyond.
