Thousands of women are diagnosed with breast cancer each year, and many more females and males are diagnosed with a variety of cancers each day. This book describes the experiences and thoughts of the male partner of a woman diagnosed with and treated for breast cancer. There are many books written on the topic but they rarely if ever mention problems confronted by the husband or spouse. The book was written primarily to provide insight for and hopefully strengthen and inspire other husbands/partners whose spouses have been stricken with breast cancer, a disease necessitating many modes of therapy, including chemotherapy and radiation.

Cancer Anger Reddit - Finding breast cancer early may not reduce a woman's chance of dying from the disease. Special caution should be used when treating women of childbearing age.
