The goal of any virus is to propagate, to multiply, to pass itself on...

When Daniel is stricken with a strange, unnamed ailment, he's desperate for answers - especially when his body begins transforming into that of a woman!

Does the mysterious young lady he recently slept with have anything to do with the transformation? And more importantly, will the sudden, overpowering sexual urges that are beginning to consume his waking thoughts take over before he can find an answer?

This story contains erotic gender-bending, first-time encounters as a woman, masturbation, exploration, and an insidious virus that turns men into women.

Excerpt:

'Some best friend you are.'

'Come on. Aren't best friends supposed to stick together?'

I said nothing.

'Besides, I was curious to find out how you were in bed since you never gave any details.'

I looked at her with an expression of horror. 'Why on earth would I want to give you the details? You're one sick bastard, you know that?'

'I'm one hot bitch now,' she said, coming closer to stroke my cheek. 'And you're looking to shape up to be one, too.'

I swallowed.

'But don't worry, being a girl can be fun, you know. For example, you have these'; She unzipped my jacket and reached inside to grab one of my breasts through the fabric of my shirt, the contact immediately sending a surge through me. 'I mean, they're nice to look at, but they feel so

much better when someone touches them the way you touched mine.”
