In this world around us we come across many misfortunes, hardships. Who causes them? Man is not the only one responsible for it. It is not just his wickedness that causes it. His intellectual and soulful feebleness is as much responsible. There is a steady conflict between our two minds. One blindly abides by all the natural feelings and one votes for the cultural aspects of the society. Common man fails to unveil the curtain over the conflict to find the truth. He is simply unable to picture the vastness of humanity beautifully on the background of the problems and questions created because of the machines. Till these problems are solved and these questions are answered, everybody's life will be shadowed during this reformative phase.
