[DOWNLOAD FULL EBOOK PDF]

The names "Enlarged Prostate" and "Prostate Cancer," just like "fibroids," have become household names. These ailments have claimed the lives of our men in their thousands, and unless we take precaution, many more will go.

Enlarged Prostate and Prostate Cancer are ailments that affect MEN ONLY, just as Fibroids affect WOMEN ONLY.

About 50% of men who are gradually advancing in age, from about 30 years old to about 50 years old, develop enlarged prostate. 90% of men who are about 80 years and above develop the condition. Although most of the patients rarely have symptoms, but with age, the symptoms appear.

In this eBook, you will learn ways in which to prevent or treat this ailment without having to go under the knife. Surgery normally brings in more complications and it is advised to avoid it.
