'The Sin System of Our World' is simply the basic gospel message of Jesus Christ. It is a look at man's condition, that is, his condition of sin and the reason for which we all need to be covered under the blood. More than this, it is a look in general at our current world and the way some of its institutions have contributed to a sinful system. Finally, it is also a look at the author's personal experiences related to the subject matter. As a retired New York City Police Officer as well as being a native of the 'Big Apple,' you might find some of Ed's insights intriguing. 'The Sin System...' is more than just the 4 step process to salvation. It tries to tell it like it is. All new believers should take note.

Ed Steele is a retired New York City Police Officer and native of that same town. He is not a theologian nor an ordained minister from any particular denomination. He is simply a guy who wants to share how he sees the gospel message of Jesus Christ. Ed continues to live and work in his beloved NY Metro Area. This is his 1st attempt at publishing a literary work. More importantly, he loves & serves the Lord. You might be able to relate to some of the things Ed talks about in his book, and then again, you might not. His only desire is that you would be open to reading what he has to say. Any comments or questions about his book can be directed to Ed's e-mail at: steeleman2@verizon.net
