Absurdist writer Jon Konrath returns with another collection of hilarious and demented flash fiction. Descend into a manic world of Kafkaesque insanity and paranoia including FDA drone strikes against weight-loss clinics, amputee porn, a celebrity kickboxing match between Yo Yo Ma and Manuel Noriega, and hobby shop exorcisms. The author of the cult classic *Rumored to Exist* continues his surreal nonlinear journey through a nightmarish terrain of Jeff Spicoli-themed restaurants, indian casino abortion clinics, and an apocalyptic landscape laced with insane humor and nonstop non sequitur references to pop culture, medical technology, military machinery, and extreme heavy metal. This collection of 26 short stories and flash fiction pieces explores the human element through deranged comedy in what demonstrates Konrath's bizarre style of experimental writing.
