Lily's life was anything but easy. It was always her and her brother against the world. They lost their father unexpectedly, and their mother left long ago.

Until she met Tanner Parks her life was basic; Uneventful but simple.

He was the unattainable bad boy; Just out of reach yet Lily longed for him desperately.

He was foul mouthed and cocky; Demanding and arrogant.

But he was exactly what Lily needed; He made her stronger.

He gave her the drive to keep her head above water, when everything else was falling apart.

Name That Book - House of Leaves is the debut novel by American author Mark Z. Danielewski, published in The novel is also distinctive for its multiple narrators, who interact with each as a horror story, many readers, as well as the author, define the book as a love..
