America's worst nightmare is our enemies' dream scenario … the fall of the almighty capitalist infidels. If America's economy collapses, it will bring down not only our government, but there will be a domino effect throughout the world.

Book One of the America's Worst Nightmare Trilogy, WHO'S YOUR NEIGHBOR, is a work of historical fiction. Most character names are fabricated. The majority of the terrorist and political names are real.

The United States of America is threatened by terrorism. Our politically correct aura and moral righteousness leave us susceptible. Our mission is simple; protect our future generations. Our government must open its eyes to the atrocious air of invincibility and become pro-active in stopping home-grown jihadist.

Picture a country, no...a world...void of laws and financial exchanges. Your family, friends and neighbors are dying of starvation and plague. Everyday citizens are shooting each other for their food supply. There is no city operated water or sanitary system...no hospital...no drug companies to provide vaccines or crucial medicines. Intercity gangs, cons and the criminal element seize control and anarchy rules. Luckily, there is still time to intercede.

The creation of Homeland Security spawns Domestic Stealth Operations (DSO), a clandestine organization with the authority to protect the domestic home front by any means necessary.

N-ROD, Chief Operating Officer of the DSO leads five teams. The Chief Field Op of each team has the authority to assassinate domestic terrorist. Rusty Scupper leads DSO-1 and carries out the first assassination of an American home grown terrorist on domestic soil.

Domestic terrorism, drug and gun cartels, assassinations, covert domestic black ops, clandestine monies and inter agency government intrigue are all just part of the captivating scenario.

Add in the development of personal relationships, scheming moles within Homeland Security and the development of tag targeting munitions and you won't want to stop reading.
