Discover a Fabled Lost World of Knowledge and Power. Legends are the relics of a shipwreck; far more of the secrets of the past have been lost than preserved. Accounts of what truly exists in our world began long after the realities had faded from human memory; legends arose to preserve those realities. Explore the secrets underlying one of the greatest of all ancient legends, that of a hidden society of highly enlightened masters living deep in the majestic *Himalayan Mountains*, revealing knowledge that for long millenniums has remained hidden under the most intense silence. On an extended trek in that vast wilderness, explorer M.G. Hawking encounters a tiny village nestled below massive ice peaks, a village called *Siddhalaya*. There he has the privilege of meeting extraordinary men and women; introduced to him as 'masters'; and 'adepts'; possessed of knowledge and powers virtually unknown to the Western world. Richly enlightening and inspirational, this book is a must read for anyone on a spiritual path or seeking greater personal knowledge and power. In this second volume of the series, we journey through the vast mountains of the *Himalayan Range* into highlands of Tibet. Hawking and his companions visit a *B’on* monastery where they are joined by a remarkable young lady trained in the ancient arts of *B’on* magic. With her assistance they locate an ancient oracle temple that reveals astonishing revelations about its origin and builders. Two manuscripts are sought, one originating in Nepal one-thousand-two-hundred years ago, the other originating in Egypt in the time of Amenhotep IV (*Akhenaten*), some three-thousand years ago. Throughout their journey, challenges and complications arise; most are overcome, yet one is not recognized until too late, an entanglement with potentially catastrophic consequences. The masters and shamans met in this book have preserved the ancient adeptic wisdom traditions in their purest form. The in-depth conversations presented recount the direct words of these adepts, revealing the knowledge and techniques necessary to utilize the power of their wisdom to transform our own lives. *The Living Part of a Legend*, Volume Two, Kindle page count 410 (estimated, actual page count varies depending on the reading device used.)
