

# Foreword

In the music industry, there are few originals... but Albert Brumley is at the top of the list in that category. Albert paved the way for writers to actually make their livelihood writing music. He was probably one of the first to do that.

Beyond Albert Brumley's professional contributions, there was not a nicer, more congenial human being to be found. He was always a delight to be around. His songs reflected His genuine love for others and for His Lord. I am proud to have known him and to have called him my friend.
