About the Composition

Unbound is an exciting composition for the advanced ensemble. With whirlwind flourishes, rhythmic punctuations and broad melodies, the music is sure to take your audience on a roller coaster ride. Coming up with titles for compositions can be a difficult task. The title for *Unbound* is a result of a passion for ski-ing that my wife and I share, and “Unbound” happens to be the name of a ski trail at Mammoth Mountain in California filled with challenges at breathtaking speeds.

The piece begins as advertised with a whirlwind flourish into the main rhythmic figure that serves as a foundation throughout the entire composition. Bring out the dynamic contrasts in mm. 9-10 to provide a brief solace from the excitement. The main melody arrives at m. 16 in a bold presentation by the alto saxophones and horns. Be mindful of the tutti rest on beat one of m. 26. Moments like that happen throughout the piece and are designed to create anticipation and drama before major arrival points. The woodwinds take over at m. 27 with the melody harmonized. Measure 38 begins a rhythmic section that embodies the true spirit of *Unbound*. One of my goals was to compose across bar lines and think in terms of absolute music. There are composite rhythms created by the various incarnations of a four note cell. It is a challenge in counting and concentration. Bring out the accents to create little pops of color in this thick tapestry of sound. The music pulls back at m. 65 for a broad but soft presentation of the melody in the woodwinds. Make this sound like one voice despite the variety of instrumentation.

The rhythmic intensity returns courtesy of the brass at m. 81. This thick tapestry is interrupted by two moments of tutti silence: one at m. 91 and again between mm. 94-95. Be conscious of these moments since it only takes one player to play in the silence to lose the effect. This rhythmic intensity continues to build into m. 100, where the upper woodwinds provide a flurry of sound through the use of altering sixteenth note passages. The low voices (along with the alto saxophones and horns) create a broad melodic statement in canon with each other. The woodwinds then pull together at m. 112 while the canonic statement continues underneath. The trumpets finally join at m. 118 to create four different counterpoint elements simultaneously. This is some of the most complicated writing of the piece and should be handled with care. This converges into a return of the opening rhythmic idea at m. 132.

The main melody makes a heroic return at m. 138. Cherish the silence at m. 149 to create anticipation for the shimmering and intense chords at m. 150, which use the opening rhythmic idea but with sustained notes instead of hits. Bring out the *fp* bursts at m. 156 which lead to a triumphant ending.

The Carl Fischer Performance Series for Band has five performance levels to provide you with a highly focused repertoire for your band. Each level has been carefully designed and graded, within specific guidelines, so that each piece in a level will work with your band when it achieves that level. Each level is also color coded for ease in finding the series that will be appropriate for your band, as it develops.

Within each grade level, you will find selections in a variety of styles and genres designed to meet all of your performance and teaching needs. The Carl Fischer composers and arrangers are some of the most respected writers in the business. Their music is dynamic, fresh and eminently worthy of your attention.

Symphonic Band

- Standard concert band instrumentation
- Difficulty within reason for high school groups
- Expanded percussion section, increased instrument options
