About the Composition

Courage is another great easy march by Harold Bennett (pseudonym of Henry Fillmore). This march was part of the very popular Bennett Band Book series, which at one time consisted of 4 volumes. Hundreds of thousands and maybe even millions of band musicians have learned how to play the march form from this famous collection of easy marches. For many years I have endeavored to breathe new life into these exceptional marches. This march is presented as Fillmore intended with only adaptations in instrumentation and orchestration to fit the needs of today's young bands. *Courage* is typical of the easy marches written by Fillmore. It has a standard march form with a modulation to the subdominant at the trio. Fillmore's easy marches usually do not contain a break strain section. This and other Bennett marches are perfect introductions for younger students to the march form, which is an important part of the heritage of band performance. The delightful melodies in these marches will make them a joy to perform for bands at any level of ability.

It has been my pleasure to have the opportunity to write this arrangement. I hope that you and your students enjoy it and find it useful for your program.

About the Arranger

Music by Larry Clark (b. 1963) is some of the most popular and most performed by concert bands and string orchestras of all ability levels. Larry is equally adept at writing music for beginners as he is for high school and college ensembles. His music is tuneful, contains a fresh harmonic perspective, is well scored and stretches the musicianship of the performers. He prides himself on producing music that is not only intriguing to performers and audiences alike but that contains a playability that comes from a keen understanding of the technical difficulties inherent in all instruments. His pieces have been performed internationally and appear on numerous contest/festival performance required music lists. He is an ASCAP award-winning composer, has over 200 publications in print and is in demand to write commissions for bands and orchestras across the country.

Besides his abilities as a composer Larry serves as Vice President, Editor-in-Chief for Carl Fischer Music. In this capacity he oversees all publications in all genres for this esteemed music publisher. However, his main focus is on selecting, editing and producing concert band and string orchestra music for the company. He travels the world representing Carl Fischer Music doing clinic/workshops and guest conducting appearances. His background as a former middle school and university band director at Syracuse University, combined with his composing and editing, have placed Larry at the forefront of music for school ensembles. He holds a Bachelors Degree in Music Education from Florida State University and Masters Degrees in Conducting and Composition from James Madison University in Virginia. The Carl Fischer Performance Series for Band has five performance levels to provide you with a highly focused repertoire for your band. Each level has been carefully designed and graded, within specific guidelines, so that each piece in a level will work with your band when it achieves that level. Each level is also color coded for ease in finding the series that will be appropriate for your band, as it develops.

Within each grade level, you will find selections in a variety of styles and genres designed to meet all of your performance and teaching needs. The Carl Fischer composers and arrangers are some of the most respected writers in the business. Their music is dynamic, fresh and eminently worthy of your attention.

Flexible Band

- Flexible instrumentation scoring to assist bands with incomplete or unbalanced instrumentations
- Playable by as few as five players with five part scoring, plus percussion
- Pieces will sound full in a number of combinations of instruments as long as the five parts are covered
- Grade levels between 2.5 and 3
- Optional keyboard part provided to enhance the sound if needed
- Series will include already popular titles re-scored for flexible instrumentation and new works
