## NOTES TO THE CONDUCTOR

The song melody of *Battle Hymn of the Republic* has been present in American culture since the mid-1850s and was also known as “John Brown’s Other Body.” However, Julia Ward Howe’s poem became the lyrics of the song as we know it now, and the piece was published in the 1860s. My arrangement is inspired by an iconic recorded version of this tune performed by the Clark Terry/Bob Brookmeyer Quintet of the mid-1960s. Their performance is set over a loping swing groove that really gives the tune a special character. I tried to capture that feel with my arrangement.

The introduction of my chart is based loosely on pianist Roger Kellaway’s opening statement on the recording. The saxophone section handles Kellaway’s lines while the brass interjects with figures that compliment the line. An agreement of the  $\text{mf}$  dynamic level throughout the introduction will set the tone for the ensuing melody.

The first complete statement of the melody begins at m. 10 with trumpets 1 and 2 in plunger mutes stating the melody just like Clark and Bob on the original recording. Notes that are not marked with the symbols  $\text{+}$ ,  $\text{-}$ , or “wah” should be played half open/half closed so the plunger mute changes the sound of the trumpet but is not fully closed over the bell. I highly recommend seeking videos of Clark Terry performing with a plunger as he was the master of this technique! In the passage at m. 10, the rhythm section, and saxophones at m. 17, should observe proper balance so the melody can be heard.

The second statement of the melody at m. 26 is played by alto and tenor saxophones, with the baritone saxophone doubling the bass line, and brass interjecting hits and short riffs. At m. 40, a saxophone soli begins that is a transcription of Clark Terry’s solo from the recording. There are alterations of the solo, especially in the range, to adhere to series guidelines, but the spirit and attitude of Clark’s solo is captured. To fully understand Clark’s articulation, phrasing, and attitude, again, I highly recommend that students listen to Clark’s solo. Advanced players may want lay back and play behind the beat in spots including mm. 51–52 and m. 55, as he did on this recorded solo.

A solo section begins at m. 58, and the bass begins to walk while the drums play in a straight-ahead feel, so the groove deviates from the original recording. Guide solos and chord changes are provided for trumpet 2 and tenor 1. However, feel free to open this section up to feature additional or different soloists. For the most part, a B $\flat$  minor pentatonic or blues scale could be used to give your students a springboard into basic improvisation.

The development section begins at m. 74 with bari sax (cued in the bass) continuing the bass line from the solo section. The tenor saxophones and trombones begin a dialogue with the altos and trumpets. This passage should build to the  $\text{f}$  in m. 84. The staggered entrances of the horn section beginning in m. 86 should all be equal in volume, and the ensemble should crescendo in m. 89 on beats 1 and 2 to the  $\text{ff}$  at the end of the measure, signaling the arrival of the shout chorus.

This arrangement is dedicated to the memory of my father John “Jack” Kamuf who not only loved this melody but also introduced me to the music of Clark Terry and Bob Brookmeyer.

I really had fun writing this arrangement of *Battle Hymn of the Republic*, and I hope you and your students enjoy both studying and playing it!
