## NOTES TO THE CONDUCTOR

Arranged for the range of a female vocalist, *Oh, Lady Be Good* is presented here as a samba that will be fun for the band and audience alike. At the indicated tempo,  $\text{♩} = 92$ , the band should strive for a buoyant and relaxed feel with straight eighth notes throughout. Pay attention to dynamics and keep the backgrounds subordinate to your vocalist. At m. 55, it's the band's chance to shine as they "trade fours" with the vocalist; remember to bring the volume down for the vocalist's four-bar exchanges. That section is followed by a sax soli and some interplay with the brass to finish the chorus.

A short drum solo sets up a slight change of feel at m. 89 with an ostinato bass figure at the same tempo, and then the vocalist rejoins to sing the rarely heard but clever verse to the song. The last chorus is back to the original samba feel with a raised half-step modulation for the final eight measures and a tag. The chart wraps up with a recap of the introduction in the new key.

### The Rhythm Section

The rhythm section should strive to provide a smooth and solid foundation for the band. The goal is to maintain steady time and observe dynamics. The drummer can and will set the dynamic for the band, meaning if the drummer plays too loud the horns will do the same, if the drummer plays accurate dynamics, the ensemble will respond accordingly.

The guitarist has a significant role in keeping the feel, striving to produce a soft jazz sound and always blending well with the piano and bass. Play the rhythm as written or tastefully embellish, and comp as indicated.

The piano primarily provides harmonic "pads" for the band and vocalist. The left hand doubles the bass throughout so if the bassist is a strong player, the piano may omit the LH when doubling the bass.

It's the job of the bass and drums to lay down the basic "2 feel" of the samba by accenting the half note throughout. Keep it simple and focus on keeping good time, which sounds simple but can be a challenge. I highly recommend all members of the rhythm section listen to a variety of professional band recordings to hear what is possible with a samba groove. Listening and learning from the pros is always an excellent educational tool.

### The Horns

Strive for a solid and balanced sound whether it's with the full ensemble or a lighter section. Observe dynamics and always strive to not to overpower the vocalist when playing background passages. Always focus on good intonation, especially in unison passages such as the saxes in mm. 12, 13 and 14; the trumpets in mm. 23 and 24; and the trombones in mm. 33–36. Focus on how the written articulations will play a major role in the feel, tightness, and concept of the ensemble. Another thought is the horns should strive to play lighter than usual to avoid laying back, which will help keep the tempo moving forward.

### The Vocalist

The vocal range is from G below middle C to third line B $\flat$ . Pay careful attention to the melodic intervals and strive for good intonation. The modulation at m. 137 is set up by the band, and the vocalist will focus on careful listening to find the pickup notes in m. 136. There are numerous recordings of *Oh, Lady Be Good* by great jazz singers. Listening is always a terrific way to learn a song!

Please enjoy!

—Scott Ragsdale

**Scott Ragsdale**

Scott Ragsdale is retired from the U.S. Navy Band of Washington, D.C., where he served as chief arranger, composer, and trombonist with the Navy's premier jazz ensemble, the Commodores. He has also arranged for numerous bands up and down the East Coast for more than 30 years. He studied music at Southern Illinois University and the Berklee School of Music (MA).

The image shows a page of a musical score for the song "Oh, Lady Be Good". The score is arranged for a conductor and includes parts for vocalists (Vocal, Alto 1, Alto 2, Tenor 1, Tenor 2, Baritone) and instrumentalists (Trumpets 1-4, Trombones 1-3, Bass Trombone, Guitar, Piano, Bass, and Drums). The vocal parts feature a unison section starting at measure 12. The instrumental parts include guitar chords (G11, Cmaj9, G11, Cmaj9, G11, Cmaj9, G11, G15(b9)), piano accompaniment, and a drum part with a snare drum pattern. A large red watermark "Preview Only" is overlaid diagonally across the page, and the text "Legal Use Requires Purchase" is written below it.
