Rising Band Series

(Grade levels 1 1/2 - 2)

The Rising Band Series is carefully designed and written to serve the performance needs of the developing band program. In addition to providing quality performance literature for your concert program, each title in the series provides an appropriate musical setting for the conductor/teacher to reinforce musical concepts and skills that have been addressed in the first two years of instruction. Written at two grade levels (1 1/2 and 2), the Rising Band Series provides a variety of musical works that employ the note and rhythm sequence used in most band method books. The Rising Band Series is a sound fundamental approach leading to a command of the concert band.

Piano/Keyboard (optional).....	1

Program Notes

As a young boy, I was fascinated with all things pertaining to space travel. My parents bought me a book about the "Harmony of the Spheres." At age 6, I was building a rocket ship in the basement. While in high school, I had a big band named *The Astronotes*. Later, when space movies and television shows were being made, I was quite interested. The first recording project I produced for Maynard Ferguson included a jazzy version of the original theme from STAR TREK. Little did I know that franchise would provide me with a long tenure as a "space composer."

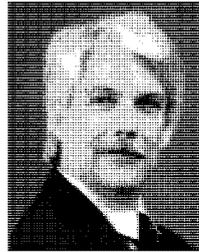

Mission To Mars was written with the spirit of adventure in mind. Perhaps in the lifetime of many of the young musicians performing this piece, a manned expedition will be able to explore this mysterious red planet.

Rehearsal Suggestions

A stately concert march, **Mission To Mars** is intended to challenge young musicians to develop accurate rhythmic concepts and dynamic contrasts. Contemporary harmonic contrasts are all to be performed with exaggerated crescendos. This piece is also a study in careful observation of accents within a triplet motive. At measure 29, the melodic instruments should perform in a legato style, contrasting to the staccato accompaniment. Four measures before 45 the style is bold and marcato with the percussion paying particular attention to the dynamics in their solo section. Two measures after 45, extreme dynamic contrasts need to be observed, as should the percussion five measures before the end.

About the Composer

Jay A. Chattaway, born in Monongahela, Pa., came to West Virginia University on a music scholarship. He graduated with a bachelor's degree in music in 1968 and while studying for his master's degree, served as assistant director of bands.

In 1969, he joined the U.S. Navy and began work with the arranging staff of the U.S. Navy Band in Washington, D.C. He was later named chief arranger and composer-in-residence, a post he held for seven years. During this time, Chattaway composed music for the navy band, orchestra and chorus. In addition, he composed selections for the White House and created original music for government training films.

Following his military service in 1976, he entered the recording industry through CBS records in New York City. As a staff producer and later as head of Jazz Artists and Repertoire at Columbia Records, he worked with many artists including Carly Simon, The Talking Heads, David Byrne, Bob James, Gato Barbieri and Maynard Ferguson.

His arrangement of The Theme from Rocky for Ferguson resulted in his first Grammy nomination and a Gold Album. For Ferguson's album *Conquistador*, he arranged a jazz version of Alexander George's Star Trek theme, which became a hit single. Chattaway's work garnered him for four Grammy nominations for jazz and instrumental arranging and composing and four Gold Albums.

In 1979, he formed Tappan Zee Records with colleague, Bob James. Three years later, when their contract with Columbia expired, Chattaway left the recording industry to score films, first in New York then in Hollywood. Since then, he has worked on 22 feature films including Stephen King's *Silver Bullet*, *Missing in Action* starring Chuck Norris and *Something Wild* directed by Oscar-winner Jonathan Demme.

Chattaway has composed and arranged original music for advertising clients such as Coca-Cola, DuPont and California Fruits. His interest in world music and love for the sea led him to compose musical scores for several National Geographic Specials and Jacques Cousteau's *Rediscovery of the World: Australia and Rediscovery of the World: Alaska*.

In 1989, he was asked to serve as a guest composer for an episode of the syndicated television series *Star Trek: The Next Generation*. After scoring three additional episodes, he was hired, in 1991, as a regular composer for the series sharing duties with composer Dennis McCarthy. *Star Trek* was the only weekly show to use a full orchestra. In 1993, he also began composing for the new *Star Trek* series *Deep Space 9*.

He has published more than 100 works for the educational market and has traveled around the world as a guest conductor. Chattaway is a leader in his field and is acknowledged as among the finest in his craft. His compositional output is among the most varied and voluminous for the industry.

The score is written for a 4/4 time signature with a key signature of two flats (B \flat and E \flat). It features a variety of instruments including woodwinds, brass, and percussion. The music is divided into six measures, with dynamic markings such as *f* (forte), *mp* (mezzo-piano), and *p* (piano) used throughout. A large watermark 'For Performance Only' is visible across the score.

The musical score is arranged in a standard orchestral format. The woodwind section (Flutes, Oboe, Clarinets, Bassoon) and strings (Saxophones, Trumpets, Trombones, Horns) play sustained notes with dynamic markings of *mp*. The percussion section (Perc. 1 and Perc. 2) features rhythmic patterns with triplets. The piano part (Pno./Kbd.) provides harmonic support with sustained chords and melodic lines. The score is marked with a rehearsal sign '35' at the beginning of measure 35. A large watermark 'For reference only. Not valid for performance.' is overlaid diagonally across the page.
