Rising Band Series (Grade levels 1½ - 2)

The Rising Band Series is carefully designed and written to serve the performance needs of the developing band program. In addition to providing quality performance literature for your concert program, each title in the series provides an appropriate musical setting for the conductor/teacher to reinforce musical concepts and skills that have been addressed in the first two years of instruction. Written at two grade levels (1 1/2 and 2), the Rising Band Series provides a variety of musical works that employ the note and rhythm sequence used in most band method books. The Rising Band Series is a sound fundamental approach leading to a command of the concert band.

Program Note

Life, as we know it, is full of significant “first time” events. As a music educator, I would always remind my students that their first concert of the year would produce a rare and unique opportunity for creating their own special moment in time. Undoubtedly, a large gathering of family, friends, and teachers would be in attendance to witness their efforts. In describing the preparation for our program, I would often say the following: “We might start our first rehearsal as a group of individuals, but by the last note of the concert we will have attained our goal of being perceived as an individual group of amazing and wonderful musicians.”

Rehearsal and Performance Suggestions

- The opening strains of this fanfare should be bold, yet very controlled in terms of tempo and the overall sound of the ensemble. Remember, achieving a quality tone is extremely important to every composition.
- The allegro moderato starting at m. 7 should be articulated very lightly.
- When the main theme occurs at m. 9, make sure that flute, oboe, 1st clarinet, and 1st trumpet are acknowledged as the prominent voices.
- A rich and warm sounding theme is introduced by the clarinets at m. 17. In addition, the alto saxophones and horns provide a wonderful counter melody above the lower harmonies of this flowing section.
- The four measures prior to 35 should start soft and gradually build in volume when returning to the main theme. Be sure to save some energy for the glorious key change at m. 44.
- The ending is quite dramatic as it slows to an exciting finish. The last note should be controlled with enough length that we hear the full sounding nature of this glorious chord.
- Above all else, have as much fun performing this piece as I did in composing it.
