Program Notes

Jubilee 150 was commissioned by and composed for the 350-piece “Pride of West Virginia” band to celebrate the 150th Anniversary of the founding of West Virginia University. It was first performed and conducted by the composer at Mountaineer Stadium in the presence of 60,000 fans. This version was re-arranged and adapted by the composer for concert band.

Jay Chattaway is a graduate of West Virginia University and has earned both Bachelors and Masters degrees in Music from the College of Creative Arts. The Emmy-winning composer has donated his scores from his work on the “Star Trek” television series to the University Archives. He holds the rank of “Distinguished Composer-in-Residence” at that institution where he teaches composition two weeks a year.

Performance Suggestions

Jubilee 150 is designed to be a fanfare or concert opener. As such, the opening fanfare from the trumpets should dominate the tonal spectrum. At m. 24, the piece is percussion driven, and proper articulations and dynamics in the winds are essential to produce the desired effects. Additional Latin percussion could be employed in this section as well. The concert tom parts should be played with sticks or hard mallets to provide more clarity. Observe the gradual ritard in m. 40 and perform the last three notes very decisively.

About the Composer

Jay Chattaway is an Emmy award winning composer, having been nominated nine times for his work in television, particularly for the hit Star Trek series. He is also the producer of many Grammy award music projects, and has worked with artists as diverse as Carly Simon, Bob James, Maynard Ferguson, Gato Barbieri, David Byrne, The Talking Heads, The Fania All-Stars, Herb Alpert, and most recently The von Trapp Children.

In addition to his television work, Jay has composed the scores for over 30 feature films. Mr. Chattaway has served as Director of A&R for CBS records, has been the President of the Society of Composers and Lyricists and Governor of the Academy of Television of Arts and Sciences. He has both Bachelors and Masters degrees from West Virginia University, and post-graduate studies at The Eastman School of Music.
