PROGRAM NOTE

Centura was written to celebrate the 100th anniversary of Memphis' AMRO music stores. With an outreach across seven states, AMRO has been a wonderful resource for music educators and their students for over a century. Owned and run by the Averwater family for generations, they have been recognized several times with various honors from NAMM and the Memphis community and are valued partners of many states' music education associations. The Centura project was presented by Arkansas band directors, wanting to recognize the store for its numerous contributions as advocates for music education and for the continued support provided to school music programs.

NOTES TO CONDUCTOR

Make contrast a major element of your performance. In particular, focus on contrasts in the sections that build or decay during moments of transition.

The motif at measure 24 appears several times and is particularly effective if the non-accented notes get out of the way. Wind players should concentrate on a consistent articulation style.

I like to conduct the section at measure 33 in a broad manner, giving the feel of being half tempo. However, there are times when it is more appropriate to stay in 4, particularly if the ensemble has trouble keeping the existing pulse and maintaining the energy moving forward.

There is a quasi-solo for the suspended cymbal player at measure 49. Allow the swell of the cymbal to go beyond the winds' release.

The timpani part at measure 50 is more effective with staccato mallets. I've performed it by having the timpanist flip the mallets and play with the butt of the mallet.

I truly hope you and your ensemble will enjoy making the music come to life. I send my best wishes to all for an outstanding performance!
