PROGRAM NOTE

Imagine wooden swords versus metal and stone as the music tells the tale of this epic confrontation. The end result is a musical soundscape of an intense battle in ancient times.

The composer writes, "Listen to the metallic and wooden instruments in the percussion section. I was inspired to write this piece after hearing my middle school beginning band students talk about the differences in volume between the brake drum and the claves. I began to think about where these types of elements would have been at such odds in our human history. The ancient times seemed like a great place to explore musically!"

NOTES TO CONDUCTOR

Ancient Duel explores several key musical elements such as articulations, slurs, dynamics along with call and response. There are several instances of terraced dynamics, such as measures 14-30, that require performers to turn up the volume as notated to build the musical intensity of the duel.

Each of the percussionists will get the opportunity to explore two different instruments throughout the piece. The snare drum part explores 16th notes including many accents throughout that capture the style. This will be a nice teaching moment for your young musician(s).

If a brake drum is not available, please substitute a cowbell or similar metallic non-pitched percussion instrument.
