PROGRAM NOTE

Red was originally composed as a movement from a suite entitled *Krisanna's Colors*. The suite was written to honor Krisanna Roberts, an amazing young lady who shared her joy and love for life with all.

She described her days and emotions in colors. Pier Hardin, her art teacher, shared her love for color as follows:

"Krisanna Roberts' love of color was evident from the first moment one met her. She herself would likely be decked out in cheerful, brilliant pinks or lavenders or spring greens, any hue associated with the world in full bloom. She would compliment whomever she met with some observant comment about the colors that person had selected to wear that day. She would say how much she admired a particular stone in a piece of jewelry for its clarity of color, a stripe in one's shirt because it reminded her of the color of a favorite flower, a painting because of a dot of chartreuse or lemon yellow. No detail was too small for her to notice."

A red day for Krisanna was extremely energized and fierce. In the face of adversity, her enduring spirit conveyed beauty and optimism to all. Determined, loving, generous, funny – Krisanna truly lived in the light.

Red was commissioned by and dedicated to Krisanna Roberts and the UMS-Wright Music Program of Mobile, Alabama. The piece was premiered on May 25, 2010, under the baton of UMS-Wright Conductor Richard DeLaFuente.

NOTES TO CONDUCTOR

The opening clarinet solo (Krisanna's instrument) and the clarinet choir should be quiet and mysterious. The full band entrance beginning at measure 9 should be dramatic and fierce in contrast. Please note the dissonant harmonies beginning at measure 9. The balance and tuning of the dissonant intervals (2nds) should be prioritized for optimum musical effect.

The violin II, viola, and clarinet sections begin with a fragmented melody at measure 21. Other sections join in layers creating a melodic echo and rhythmic interaction. Please insure the balance between the interacting lines.

The energy level should be consistent throughout with a heightened emphasis in the "raging" section at measure 70. The intensity to the end should be maintained with focus on the dynamic shaping leading to the final two notes.

I hope that you and the orchestra find **Red** to be a rewarding musical experience. It is also my hope you will consider programming the entire suite including *Yellow* and *Blue* as published by the RWS Music Company. Best wishes to all for a wonderful performance!
