### PROGRAM NOTE

**Yellow** was originally composed as a movement from a suite entitled "Krisanna's Colors". The suite was written to honor Krisanna Roberts, an amazing young lady who shared her joy and love for life with all.

She described her days and emotions in colors. Pier Hardin, her art teacher, shared her love for color as follows:

"Krisanna Roberts' love of color was evident from the first moment one met her. She herself would likely be decked out in cheerful, brilliant pinks or lavenders or spring greens, any hue associated with the world in full bloom. She would compliment whomever she met with some observant comment about the colors that person had selected to wear that day. She would say how much she admired a particular stone in a piece of jewelry for its clarity of color, a stripe in one's shirt because it reminded her of the color of a favorite flower, a painting because of a dot of chartreuse or lemon yellow. No detail was too small for her to notice."

A yellow day for Krisanna was bright and cheery which she freely shared with others. In the face of adversity, her enduring spirit conveyed beauty and optimism to all. Determined, loving, generous, funny; Krisanna truly lived in the light.

**Yellow** was commissioned by and dedicated to Krisanna Roberts and the UMS-Wright Music Program of Mobile, Alabama. The piece was premiered on May 25, 2010, under the baton of UMS-Wright Conductor Richard DeLaFuente.

### NOTES TO CONDUCTOR

On yellow days, Krisanna would arrive early to school and greet each and every student as they came in the front door with a smile, wave or "high five." Her infectious joy is the musical essence of this work. Strive for a sense of energy and forward momentum, yet with a lightness that conveys her enthusiasm and love of life.

Feel free to explore tempo as your performance and teaching situation requires. For developing ensembles, I suggest beginning slowly (M.M. = 92) with emphasis on articulation uniformity and clarity. As the orchestra becomes comfortable, the tempo can gradually increased leading to the marked 138 beats per minute.

Balance during the fugue should be a priority to insure the presence of each entrance and melodic line. Articulations throughout should be uniform with clarity and contrast.

I hope you will consider programming the entire suite including *Blue* and *Red*. I hope that you and the orchestra find **Yellow** to be a rewarding musical experience. Best wishes for a wonderful performance!
