TO THE DIRECTOR

This high-energy samba is perfect for festivals and concerts, and will work great as an opener or a closer. The chart starts with a rhythm section groove. The dynamic is *mf*, but the energy and flow should move. The fanfare beginning in measure 8 is played with aggression, followed immediately by the rhythm section groove at a softer dynamic.

The saxophone section states the melody at measure 20. There is dissonance here, embrace this and be sure it's played in tune. Be sure that the brass are punchy and clean the second time at measure 21. The section at measure 36 should swing hard both times

The 4 measures beginning at measure 89 will need some careful rehearsal by breaking it down into sections. First rehearse bass, bass trombone, bari saxophone and guitar. Next the upper 4 saxes, and then the upper 3 trombones. Put all 3 sections together to ensure that it's tight. Finally, rehearse the trumpets, vibes, piano and drums together before putting everything together.

The long note and fall off at 106, should be just that...long! Start measure 155 soft and let it build over 8 measures. At measure 162, 1st and 2nd Trumpets should be loud and aggressive. It's going to sound like a fire alarm, but it's off the hook with energy. Trading with the drummer should be tight and loud. The drummer is free to solo in between the rhythms, but also needs to play the ensemble hits. Clean silence before measure 183 is important. From there the melody is played and then the chart ends with the fanfare again. The open drum solo at measure 212 should be dramatic and then cue that last big chord!

SoloMate recordings are available at kendormusic.com for new Kendor and Doug Beach releases. This innovative resource lets students practice their solos by downloading professionally-recorded rhythm section accompaniment tracks. A full recording of this chart can be downloaded at www.kendormusic.com.
