Program Notes

Racers, start your engines!

Unless you have experienced it live, it is almost impossible to describe how exciting a car race can be. The rev of the engines, the roar of the crowd, the smell of burning rubber, and the zooming sound as these powerful machines fly past you. It is a complete adrenaline rush.

F-1 attempts to recreate some of this excitement for performers and audiences alike. The piece begins with the racers at the starting line and quickly leaps into full throttle. The sounds of cars passing one another and the driving rhythms (no pun intended) help propel the band forward.

Put on your seat belt. You're in for the ride of your life.

F-1 was commissioned by the National Heritage Academies Band and their conductor, David Steketee. Thank you for letting me hang out at the races in my imagination for a while. It was a blast.

Peace, Love, and Music.

Rehearsal suggestions/notes

- Ranges have been kept modest to allow for development of the rhythm, articulations, and dynamics
- The tempo of this work is critical to its character. When planning your preparation, make sure to allow time for proper technical development to achieve the written tempos, lest the work come off as "boring."
- Dynamics should be noticeable and taken to extremes.
- The trombone glissandi are intended to evoke the doppler effect of sound as cars pass. They should be brought out and exaggerated, with the glissandi happening primarily in the last beat of the measure.
- Performances of the work should have a dramatic, cinematic quality.
