## About the Composition

Pulse pounding and haunting are two very distinct characteristics of *The Ides of March*. This dramatic composition celebrates my love of modern film music and is an exercise in economy of musical material. This economy is often referred to as minimalism, although I would not go so far as to include this composition in that world. This version is scored for a flexible ensemble to give your music program many options.

"The Ides of March" is a phrase that first appeared in the play *Julius Caesar* by William Shakespeare and represented the time when a coup d'état (or government overthrow) happened in the Roman government. "Et tu, Brute?" is the famous line recited by Julius Caesar at the climactic scene. The music reflects the heart-pounding pace of the events leading to the coup d'état.

The music starts with a three-note idea that permeates the entire composition. The first section of the piece from mm. 1–35 is essentially one big crescendo. Different elements get added to the core three-note idea to increase its complexity. The swells in the low voices provide a grounding element to the rhythm above. The rhythm starts to break away from itself at m. 13 with the addition of a counter rhythm in the second and third parts. This counter rhythm becomes the main driving force at m. 21 with some melodic material introduced in the lower voices. The two eighth-note rhythmic ideas unite once again at m. 29 with a third rhythmic idea brought into the lower voices to provide the final push into m. 35.

The rhythmic cycle starts up again at m. 36, but this time it welcomes a lyrical line in the upper part. The staccato quarter notes in the low voices should have a light and spirited quality to them similar to pizzicato strings. A counter line joins the lyrical line at m. 46 with several intriguing moments of dissonance. The rhythm lets up a touch at m. 54, but quickly returns at m. 62 with the same three-note rhythm displaced by one beat between the flutes and oboes, and the clarinets and saxophones. A build-up follows that releases into the big lyrical and haunting moment of the piece at m. 74. The sound here should be broad, rich and triumphant. Bring out the eighth notes at mm. 80–81 while having the sustained notes pull back a bit. The soft dynamic at m. 90 signals a return to the rhythmic cycle. As before, layers of rhythms keep being added to increase the intensity of the moment. This crescendo finally releases itself at the end. Be mindful of the two beats of *tutti* rest in m. 121 that sets up the final climactic gesture in the following measure.

The Carl Fischer Performance Series for Band has five performance levels to provide you with a highly focused repertoire for your band. Each level has been carefully designed and graded, within specific guidelines, so that each piece in a level will work with your band when it achieves that level. Each level is also color coded for ease in finding the series that will be appropriate for your band, as it develops.

Within each grade level, you will find selections in a variety of styles and genres designed to meet all of your performance and teaching needs. The Carl Fischer composers and arrangers are some of the most respected writers in the business. Their music is dynamic, fresh and eminently worthy of your attention.

## Flexible Band

- Flexible instrumentation scoring to assist bands with incomplete or unbalanced instrumentations
- Playable by as few as five players with five part scoring, plus percussion
- Pieces will sound full in a number of combinations of instruments as long as the five parts are covered
- Grade levels between 2.5 and 3
- Optional keyboard part provided to enhance the sound if needed
- Series will include already popular titles re-scored for flexible instrumentation and new works
