

\$0 preventive medication coverage

Humana makes it easier than ever to get the pharmacy preventive services you need to maintain your overall health. Effective Jan 1, 2015 our plans provide a range of preventive medications at no cost to members.¹

The medications listed below will be covered **100 percent** when they're prescribed for preventive care purposes. This means no copayments, coinsurance or deductibles when prescriptions are filled by pharmacies in the Humana pharmacy network.

Remember, preventive care keeps you healthy and may prevent illness.

Preventive medication ²	Who's eligible
Aspirin	Men and women 45 to 79 years of age to prevent cardiovascular disease; pregnant women to prevent preeclampsia
Fluoride	Children 6 months to 6 years of age whose primary water source is deficient in fluoride
Vitamin D	Men and women 65 years of age and older who are at risk for falling and live in a residential care setting
Folic acid	Women who plan to become pregnant or may become pregnant
Iron	Children 6 to 12 months of age who show no symptoms but are at increased risk for iron deficiency anemia
Smoking cessation	Adults 18 years of age and older
Tamoxifen and raloxifene	Women who are at increased risk for breast cancer and at low risk for adverse medication effects
Contraceptives	Women of reproductive age

¹Applies to all plans except those that are grandfathered as defined by the Affordable Care Act. Refer to Humana's Drug List for specific dosages covered.

²Coverage for over-the-counter (OTC) products requires a doctor's prescription. Refer to Humana's \$0 Preventive Drug List for specific dosages covered. This list may not apply to all healthcare plans and may change over time. To understand your plan's prescription drug benefit, sign in to **Humana.com**. You can also call a Humana Customer Care representative at the phone number on the back of your Humana member ID card. Some restrictions may apply.
