

Water and Sewer Design Manual V3.10 Changes

This update to the design manual is to incorporate changes and corrections from V3.9

- In Section 7 B.3, consultants shall now submit PWD Water, Sewer, and Green Quantities Sheets (as needed) from Appendix III with the Final Design Package.
- Project Summary description and submission procedure has been added to Section 7 D.
- Appendix IVb Highway Opening Permit Application (GPIS) has been changed to remove the outdated GPIS procedure. It will be updated again when a new GPIS procedure has been finalized. Until that time, **please check with the PWD Project Engineer for updates before completing the forms on the GPIS web application.**
- Addendum and Addenda have been changed to Amendment throughout the manual. Additionally, Appendix Ib Guidelines for Preparing Amendments Page 4 has been updated in accordance with this change.
- Appendix IIIf Final Design Package Checklist has been updated.
 - GPIS submittal has been updated to account for the changes above.
 - The PWD Quantities Sheets in Microsoft Excel format have been added.
 - The Project Summary in Microsoft Word format has been added.
 - The GSI Written Report format has been changed to a PDF document.
- Appendix IIIa, b, c, & d Water, Sewer, and Green Quantities Sheets as well as the GSI Preliminary Cost Estimate have been updated. These have been on the website since January 4th, 2019; however this is the first version published since then. Please visit www.phillywaterdesign.org to download them if you have not already.

Additionally, these contacts have changed:

- Water service list request contact has been changed to Linda Jones, Linda.Jones@phila.gov
- Walid El-Morshedy has been removed from Section 6 A Base Plan Review.
- In Section 6 D.3.a.1, Michael Wagner's (Verizon copy) email address has been changed to michael.wagner@cyient.com.
