Welcome to our pain management practice!

Our board certified pain management specialists are dedicated to providing safe, high-quality, cost-effective, and compassionate care to patients suffering from acute or chronic pain through the use of advanced state-of-the-art interventional pain management techniques that seek to identify the source of your pain and to reduce or eliminate it.

We specialize in the most common pain disorders and many pain syndromes including:

- Arthritis
- Back Pain
- Cancer Pain
- Chronic Post-operative Pain
- Complex Regional Pain Syndrome (RSD)
- Compression Fracture
- Diabetic Polyneuropathy
- Facet Syndrome
- Fibromyalgia
- Head and Neck Pain
- Joint Pain
- Limb Pain
- Musculoskeletal Pain
- Neurogenic Pain
- Phantom Limb Pain
- Sacroiliac Pain

We utilize numerous advanced state-of-the-art techniques depending on the nature of the pain disorder, including:

- Diagnostic Injections (Peripheral, Spinal)
- Neurolysis (Radiofrequency, Chemical)
- Therapeutic Injections (Peripheral, Spinal)
- Peripheral Nerve and Spinal Cord Stimulators

All spinal injections are done under fluoroscopic guidance.
Where appropriate, ultrasonography will be utilized.

Your health and well-being depend on a partnership between you and your physician and others on the healthcare team. Our partnership is of the greatest benefit to you when you bring your medical problems to our attention in a timely fashion, provide information about your medical condition to the best of your ability, ask questions about your care and treatment, and actively participate in your healthcare management.

We want you to feel comfortable in our office and have designed this New Patient Packet with information that should help answer some of your questions about our practice. Please feel free to discuss any of our policies with our office staff.

We look forward to the opportunity to serve you!
