

Adding Piazza to Coursera

It's very simple to integrate Piazza with Coursera. In fact, it will probably take you about 5 minutes!

Two pieces of information are needed to complete the setup:

- Consumer Key: `piazza.sandbox`
- Consumer Secret: `test_only_secret`

Please contact integrations@piazza.com to receive a key and secret for your school when you're ready to use the integration for real classes (it's free). **The key above is for testing purposes only.**

Please contact us if you have any questions about using Piazza with Coursera. You can read more about the integration here: <https://piazza.com/lti>

Steps

1. Log in to Coursera.
2. Click **your username > Admin**.
3. Select the session for which you want to integrate with Piazza by clicking the session link.
4. Click the link in the **Course** field.
5. Click **Advanced > LTI Management**.
6. Click anywhere in the box to type the required information for the Piazza course.
 - **Note:** You might need to click **New Tool** to open a new form.

Field	Description
Name	Type a descriptive name.
URL	Enter https://piazza.com/connect (must be https)
Key	Enter the value you received from integrations@piazza.com .
