

A photograph of three healthcare professionals in a clinical setting. In the foreground, a woman with dark hair, wearing teal scrubs and a white surgical mask hanging from her neck, looks directly at the camera with a slight smile. Behind her to the left, a man in blue scrubs looks towards the camera. Behind her to the right, a woman in teal scrubs looks slightly to the side. The background is a bright, out-of-focus hospital hallway.

*Lippincott® Nursing
Education Solutions*

*On the front line
of CARE*

Solutions built for better outcomes. For students, faculty, and patients.

Nursing students and instructors today are under immense pressure. The profession demands you be the best. This means it's more important than ever to have the clinical judgment to be ready for practice on day one.

Here is where starting with the best matters.

Wolters Kluwer delivers the expertise and knowledge that put us at the forefront of nursing content and make us the game-changer in nursing education. *Lippincott® Nursing Education* is the leader in integrated, digital learning solutions.

This is more than books or videos or tests.

This is building student confidence and clinical judgment. This is evidence-based learning platforms and personalized, adaptive technology to enhance critical thinking in students.

Only **23%**
of newly licensed nurses are able to think critically and have clinical judgment.¹

This is free access to award-winning support to guide you every step of the way.

This is the first stage of lifelong learning.

This is Wolters Kluwer with you all the way — on the front line of care.

Lippincott® CoursePoint:
On the front line of
LEARNING

Lippincott® **CoursePoint**

Designed to help students understand, retain, and apply course knowledge, *Lippincott® CoursePoint* is a fully integrated, adaptive, digital course solution for nursing education. It works the way students study and learn. And now it's enhanced with even more adaptive content, robust reporting, and deeper analytics to help students prepare for practice.

Innovation begins with this powerful platform.

CoursePoint is engagement that educates and entertains. It's learning with a purpose to show tomorrow's nurses how every learning activity applies to the real world. Content and study tools are delivered where today's students are. This keeps them focused on improving their outcomes so they stand tested and ready to be clinically competent nurses.

Trusted Content, Tested Technology

We're continually upgrading our *CoursePoint* platform, gearing it toward nursing faculty to teach more effectively and to boost student success.

In-Depth Reporting

CoursePoint uses dashboards with key data points to track student progress and help identify strengths and weaknesses at every step.

Intuitive Platform Design

An intuitive interface and user experience make it easy for both students and instructors. It's a seamless experience that's made to be convenient.

Training and Support

Count on personalized support and training on all our digital products — Getting Started Webinars, Course Integration Webinars, Ask-an-Expert Services, and more.

Preparing for Curriculum Success

With tools like *PrepU's* adaptive quizzing platform, *CoursePoint* gives students confidence to become clinically competent and compassionate nurses.

Lippincott® **CoursePoint+**

On the front line of preparing for practice

Go beyond the classroom.

Nurses shouldn't face an on-the-job learning curve. *Lippincott® CoursePoint+* takes preparing for practice to a new level by integrating innovative tools such as *vSim® for Nursing* and *Lippincott® Advisor* directly into its platform.

Combined with the evidence-based content of *Lippincott Advisor*, students get the opportunity to assess, interpret information, make appropriate decisions, and take impactful actions to promote better health outcomes.

Most importantly, *CoursePoint+* helps students build the clinical judgment skills needed to succeed in practice.

Access to *vSim for Nursing* is included in *CoursePoint+*.

Lippincott® CoursePoint and Lippincott® CoursePoint+ available for:

- Anatomy
- Issues & Trends
- Nutrition
- Community & Public Health +
- Health Assessment +
- Pathophysiology
- Culture
- Leadership & Management +
- Pediatric +
- Dosage Calculations
- Maternity +
- Pharmacology +
- Evidence-Based Practice
- Maternity-Pediatric +
- Psychiatric Mental Health +
- Fundamentals +
- Medical-Surgical +
- Research
- Gerontology +
- Medical Terminology
- Informatics
- Nursing Skills +

+ Included in *Lippincott® CoursePoint+*

*“With *CoursePoint*, students come to class better prepared than previously. They now read all the course material, participate in class discussions, and ask more questions. They're more engaged and their test scores have gone up.”*

—Betsy Schnowske, Nursing Instructor, McHenry County College

vSim for Nursing
is included in Lippincott®
CoursePoint+.

vSim® for Nursing
On the front line
of CLINICAL
PREPAREDNESS

vSim® for Nursing is co-developed by Wolters Kluwer and Laerdal Medical with scenarios written by the National League for Nursing (NLN). The scenarios bring fidelity to the learning experience, so students can engage, identify, and interpret information, and assess appropriate nursing actions. Just like they will do in practice.

True-to-life clinical experience at your control.

With comprehensive patient scenarios available throughout your curriculum, vSim helps you deliver the real-world experience students need to transition to practice while honing the clinical judgment, competence, and confidence they'll rely on throughout their careers.

Students can expect:

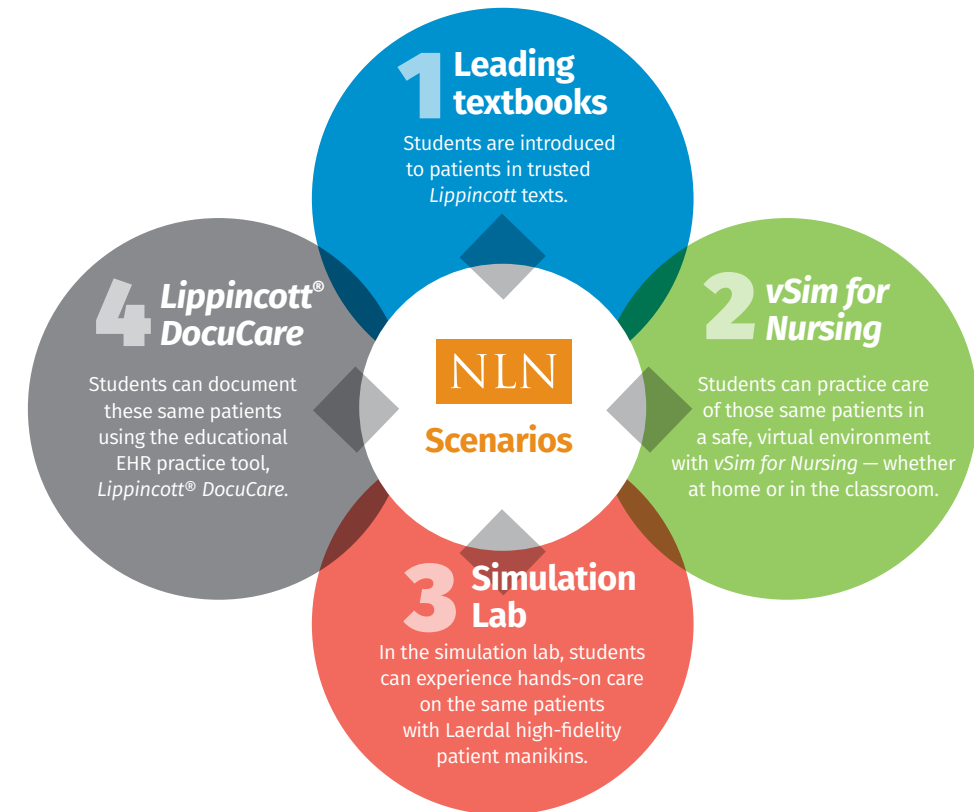

- **Point-of-care** content used in hospitals nationwide
- **An interactive**, personalized simulation experience
- **Improved** clinical judgment skills
- **Real-world**, evidence-based scenarios
- **Unique**, personalized learning
- **Mensurable** success
- **Staff and student** training support

“vSim® for Nursing is the closest thing we’ve had in lab to real-life clinical experience.”

— Laura G., nursing student, Quinnipiac University

Wolters Kluwer provides the full circle of clinical learning.

vSim for Nursing integrates fully into your curriculum.

Personalized learning.

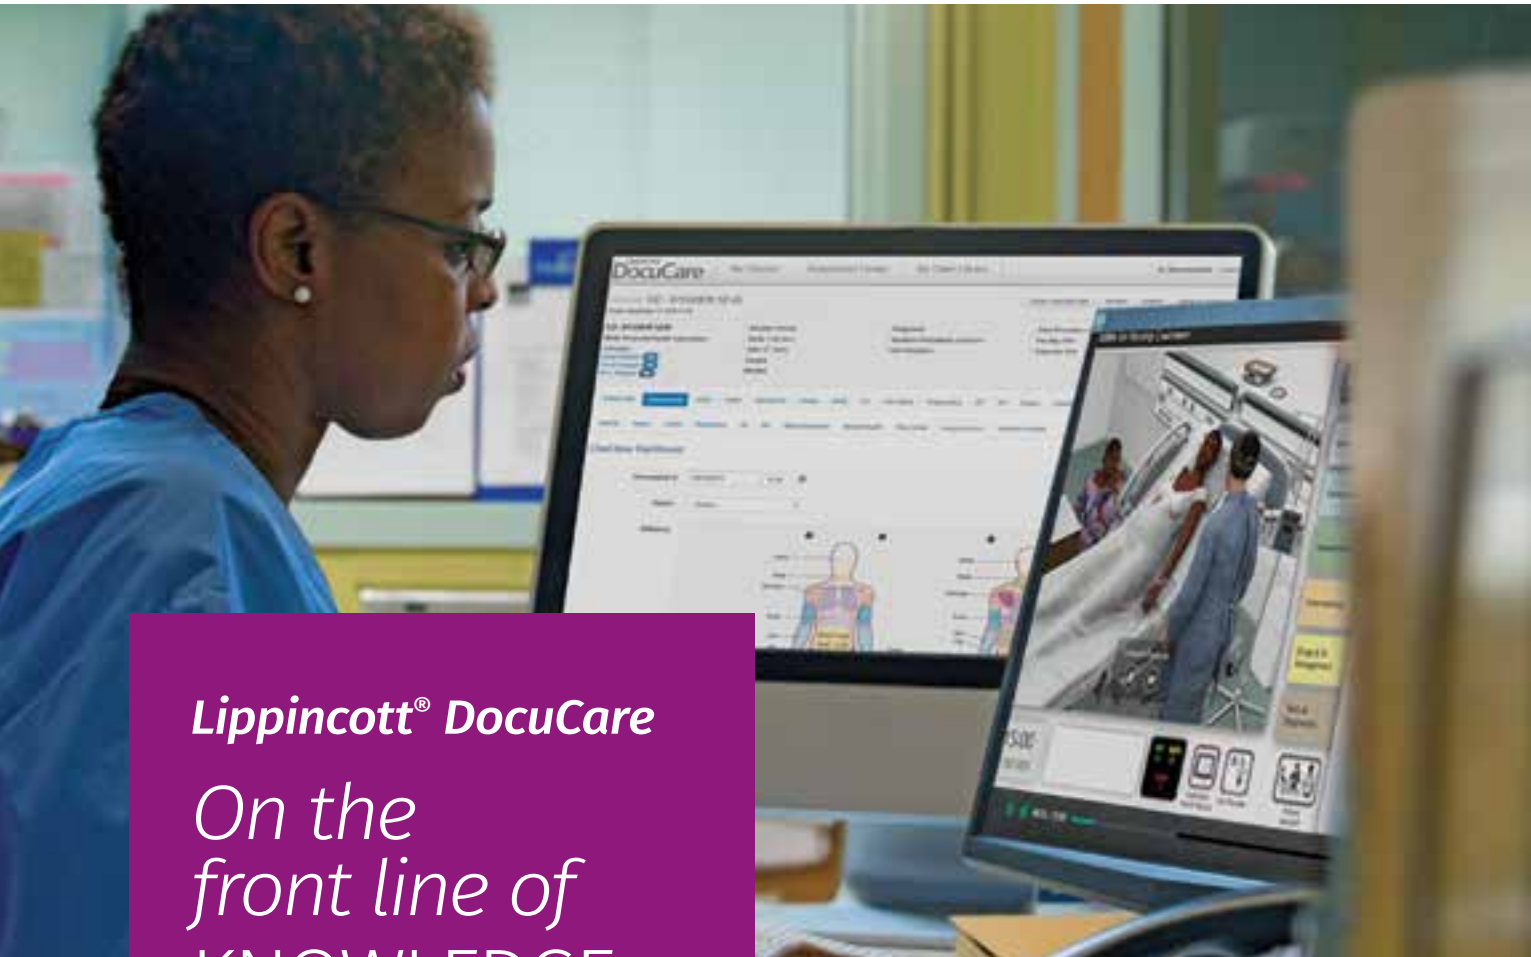

By recording student interactions throughout its virtual simulations, vSim makes it easy to measure each student’s success, pinpoint specific weaknesses, and deliver instant remediation. SmartSense® links provide students with additional information and specific remediation content from Lippincott® Advisor and Lippincott® Procedures – the same evidence-based, point-of-care content used in hospitals nationwide.

Preparing students for patient-centered care.

vSim helps nursing students focus on developing clinical reasoning skills against six key nursing education pillars:

- **Safety Measures** – Learn to practice safe procedures.
- **Communication** – Interact with the virtual patients through questions and text and audio responses.
- **Assessments** – Conduct specific physical assessments.
- **Interventions** – Take action with the patient to improve their health status.
- **Drugs & IV Management** – Administer medications according to provider orders.
- **Tests & Diagnostics** – Perform lab or diagnostic tests to support clinical decisions.

Lippincott® DocuCare
On the
front line of
KNOWLEDGE

Lippincott® DocuCare

Lippincott® DocuCare is an Electronic Health Record (EHR) web-based training solution built by a team of nursing educators and experts in health informatics. It teaches students the fundamentals of effective electronic documentation, while fostering clinical judgment and critical thinking.

“Lippincott® DocuCare has improved our students’ charting performance as well as critical thinking, and makes them more prepared for practice after graduation.”

-Carel Mountain, Assistant Director and full-time faculty for the Nursing Program for Shasta College

Our cases in DocuCare enhance clinical reasoning by contextualizing realistic patient care scenarios. This provides the opportunity to think critically about patient data, prioritize and plan effective care, document interventions, and evaluate outcomes.

DocuCare promotes clinical judgment and prepares students for practice.

Ready to Use

Pre-populated with more than 200 assignable, true-to-life patient scenarios — covering a wide range of diagnoses and demographics — appropriate for all levels of nursing.

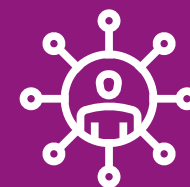

Curriculum Solution

DocuCare goes beyond just teaching documentation. It teaches nursing content in the context of a patient record — for a richer, real-world experience.

Easy to Navigate

User-friendly navigation allows students to explore the web-based patient charts at their own pace.

Customizable

You can further integrate DocuCare into your curriculum by creating your own patient records. Students can also create privacy-protected records.

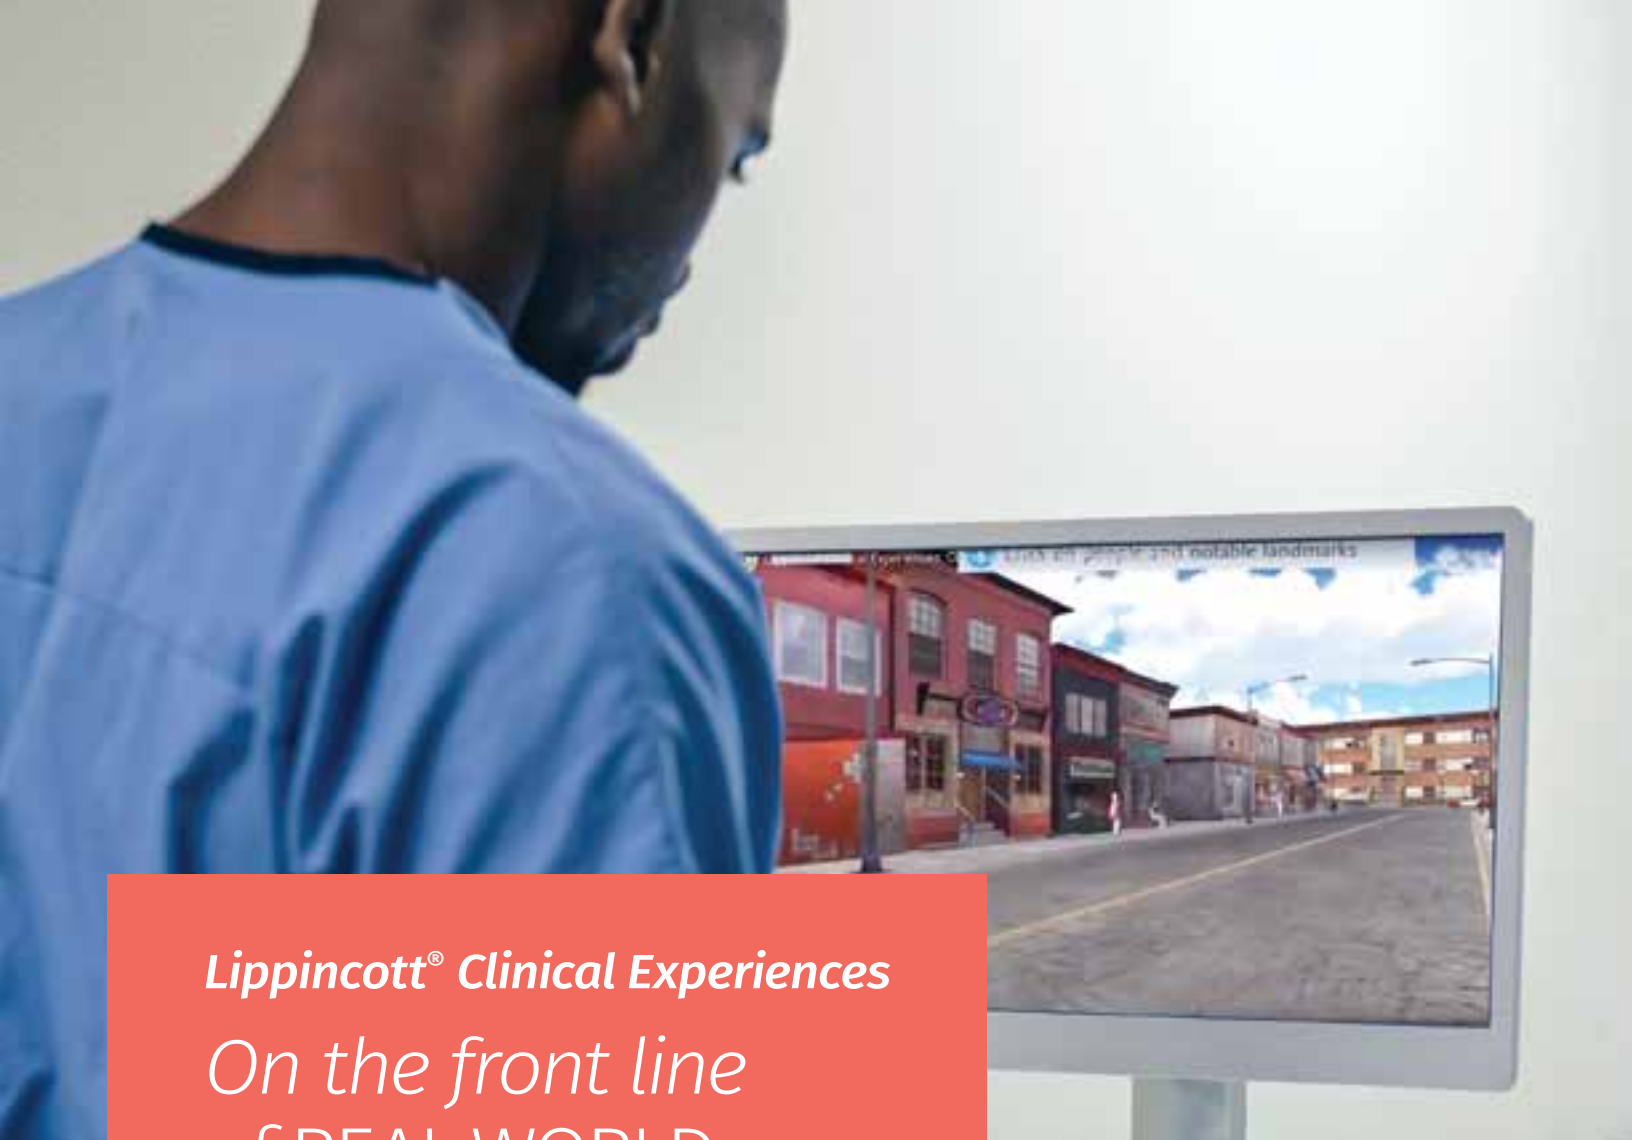

Learning with SmartSense

Students are immersed in an engaging environment where information is just a click away. SmartSense links in patient records connect to a subset of evidence-based content from Lippincott® Advisor and Lippincott® Procedures.

An Ideal Teaching Tool

Interact with students, track their progress, and focus your teaching strategy using evaluation tools, pre-populated cases, and a unified simulation experience.

Lippincott® Clinical Experiences: Community, Public, and Population Health Nursing

The key features of Clinical Experiences:

- **Independent, portable virtual experiences** give students rich, broad, anytime and anywhere community health clinicals.
- **Virtual Experiences** allow students to **practice communication and intervention skills** in a safe, low-stakes engaging environment.
- **Diverse settings** (such as a prison, client home, rural disaster setting, community health clinic, or shelter) allow students to experience the breadth of community health nursing.
- **Assignments** provided for both the virtual and real-world experiences tie content to practical application and allow students to broaden their understanding of community, public, and population health issues.

- **Reports on student assessments**, as well as actions completed in the virtual experience, provide instructors and students with the information they need for success.
- **Prepare your students for practice.** Ensure your graduates understand the multifaceted nature of community, public, and population health and are consistently exposed to diverse settings, situations, and populations.

Lippincott® Clinical Experiences
On the front line
of REAL-WORLD
CLINICAL EXPERIENCE

Lippincott® Clinical Experiences — co-developed with nursing educators Jone Tiffany, DNP, RN, CNE, CHSE, ANEF, and Barbara Hoglund, EdD, MSN, FNP-BC, CNE — offers clinical experiences that consistently expose students to diverse settings, situations, and populations. As students immerse themselves in a safe and engaging virtual environment, they are exposed to the real-life application and complexity of key community, public, and population health concepts.

Through this solution, students are building their critical thinking skills by:

- Making observations
- Holding virtual conversations
- Triaging at a disaster scene
- Doing research online
- Conducting interviews

Breadth of Community Nursing Settings

Students can deeply immerse themselves in the needs of urban and rural populations in fun and interactive ways — leading to learning.

“Lippincott® Clinical Experiences allows for better use of students’ direct care hours and exposes them to other roles of the nurse.”

—Nicki McCain, MSN, CNE, CNL, Nurse Educator, Jefferson College of Health Sciences

Lippincott® PassPoint

On the front
line of NCLEX®
SUCCESS

Lippincott®
NCLEX-RN PassPoint
Lippincott®
NCLEX-PN PassPoint

Adaptive, personalized NCLEX® preparation.

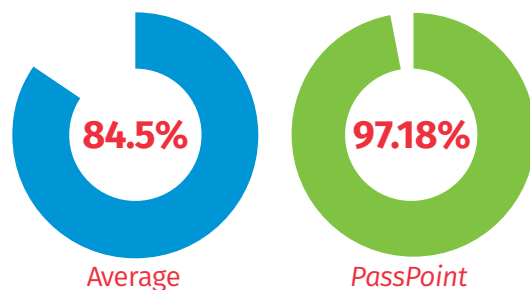

Lippincott® PassPoint is the first and only adaptive learning and testing platform that adjusts to a student's performance as they go. It's how students prepare for — and pass — the NCLEX®. More importantly, it's how students gain the clinical judgment skills necessary to be successful on the front line of care.

With our engaging solution, students can:

- **Take** adaptive practice quizzes and unlimited comprehensive exams.
- **Access** evidence-based content at the moment they don't understand something.
- **Practice** answering a rich series of NCLEX simulated questions.
- **Gain** confidence, competence, and endurance for exam day through an authentic practice environment.

Proven results. Proven success.

Students using PassPoint to prepare for the NCLEX have a passing rate that's more than 12% higher than the national average.²

Benefits for faculty:

- **Delivers detailed student performance** feedback, including individual and class strengths and weaknesses, misconceptions, and usage patterns.
- **Provides class performance** as compared to a national student pool.
- **Helps you identify and help improve** performance of at-risk students before they take the exam.

Lippincott® Advisor:

*On the front line of clinical
decision support*

A virtual library of answers.

Lippincott® Advisor is the leading, evidence-based, clinical decision support software. It delivers to students — via mobile and desktop — 24/7 access to the same content that nurses encounter in practice. This helps promote student competence, confidence, and success, as they transition from student to practice-ready nurse.

- **Eliminates** wasted time from unreliable Internet searches.
- **Supports** effective care transitions, increasing patient safety.
- **Integrates** with Lippincott® DocuCare Electronic Health Records (EHR).

Lippincott® Nursing Education Solutions —

Trusted, real-time, powerful content and interactive search.

- **Reveals** drug + food + alcohol interactions.
- **Includes** full drug identifier to narrow drugs by color, scoring, and shape.
- **Calculates** drug dosages.
- **Highlights** patient safety abbreviations.
- **Includes** herbal remedies, supplements, and their interactions.
- **New!** Covers quality and safety indicators and quality improvement strategies used in hospitals nationwide.

Lippincott®
Advisor for Education
is included in Lippincott® CoursePoint+

“Lippincott® Advisor is a comprehensive resource that allows students to efficiently research disease processes and medications in both the classroom and clinical setting.”

– Nicole Rowe, MSN, RN, Director of Allied Health, Gogebic Community College
