NEEDED TO
CLONE MYSELF
SO I'D HAVE A
TEAM TO TEACH
MY CLASS.

RHONDA LAWES

PhD(c), RN
Director of Nursing

Dear Faculty Colleague,

Do you find yourself exhausted from trying to provide accessible nursing content to your students?

For most of us, the thought of spending huge amounts of time and energy creating another voice-over PowerPoint has left us thinking there must be a better way to teach key content to nursing students.

As a faculty member who is right alongside you in the classroom, I promise you there is!

You don't need to spend hours looking for the reliable, yet always elusive, YouTube videos on key topics such as starting an IV, acute coronary syndrome, the stages of labor, or any other of the hundreds of topics we teach in nursing school!

That's because Lecturio has got you covered.

Our team of practicing nurse educators have developed a wide range of resources for you, including concise video lectures, smart recall quizzes, lecture slides, clinical skills modules, and a question Qbank covering all relevant nursing school topics – all of which can be used as part of your overall teaching plan.

WHY

WE ARE DIFFERENT

Everyone needs a personal assistant. While we can't pick up your dry cleaning, we **CAN** assist with tutoring your students individually – and we're available 24 hours a day!

Support distance teaching & learning

- Built on principles of learning science
- Designed to maximize recall and conceptual clarity
- Ensure your students' activity and learning success, even from a distance if needed

Create & assign your own courses

- Easy-to-follow Course Creator: upload any new and pre-existing learning material
- Seamlessly integrate your material with Lecturio's content, including:
 - Videos
 - Recall questions
 - Exam practice questions
 - Clinical Skills modules
 - Cheat sheets
 - Learning paths

SMART CONCISE ADAPTIVE

Identify students' learning difficulties with ease

- Your students automatically create a constant stream of activity and performance data by watching videos and answering recall questions
- You can see exactly where your students and cohorts struggle

Cover all relevant nursing school topics

- Experienced and proven nursing educators
- Teach the required academic nursing knowledge
- Matched with practical years-long experience

WHY

STUDENTS LOVE LECTURIO

Nursing skills development

Students can find almost all relevant nursing courses they need to become skilled, educated, and empowered nursing professionals.

Made by nurses for future nurses

Evidence shows that students learn better from personalities they can connect with. Lecturio's nursing faculty are subject-matter experts and highly-qualified educators.

Highly engaging bite-sized content

Lecturio courses are based on the advanced principles of learning science. Studying nursing has never been more engaging.

Thank you for the beautiful explanation in this short video

This video made it so simple for me to understand and I wish we had Lecturio instead of ATI, because ATI is so complicated.

Steven about the "Review of the Endocrine System"

WHY

NURSING FACULTY LOVE LECTURIO

Engaging resources

Whether you are looking for a complementary learning resource or a supplement to lectures, Lecturio has the best solution for you.

Flexible & smart integration

Easily make it your own – add your logo and integrate Lecturio directly into your Learning Management System.

Optimal faculty support

Lecturio is here to help and provides ongoing faculty and student trainings.

COURSE CREATOR

CREATE YOUR OWN COURSES AND LEVERAGE
EXISTING ONES WITH LECTURIO'S CONTENT

You can upload your own video lectures, exam questions, and teaching materials to the Lecturio Cloud and conveniently assign them to your students as needed. Additionally, you can place recall questions in your own video lectures.

EXAM PRACTICE QUESTIONS

THE LECTURIO QUESTION BANK HELPS STUDENTS PREPARE FOR END-OF-COURSE EXAMS

The nurse is caring for a client who received alteplase therapy 12 hours ago. Which situation will cause the nurse to intervene?

- | | |
|--|-----|
| <input checked="" type="radio"/> A. A UAP applying anti-embolism stockings | 5% |
| <input type="radio"/> B. A respiratory therapist preparing to obtain arterial blood gases (ABGs) | 6% |
| <input type="radio"/> C. A family member feeding the client a snack | 7% |
| <input type="radio"/> D. A student nurse preparing to administer acetaminophen | 80% |

Next

Result:

 Incorrect

Explanation:

Correct answer B: Alteplase is a thrombolytic that dissolves clots. During the first 24 hours following this treatment, it is not recommended to perform any procedures that may cause bleeding. Arterial blood gases are obtained through puncturing the radial artery and should be avoided for 24 hours after alteplase therapy unless absolutely necessary.

Options A, C, and D: The main concern post-alteplase therapy is bleeding. Procedures that could cause bleeding such as inserting catheters or arterial lab draws should be avoided for 24 hours. Applying anti-embolism stockings, feeding the client (as long as they passed a swallow assessment), and administering acetaminophen are safe and do not require the nurse to intervene.

QBANK MANAGEMENT

ASSIGN LECTURIO'S QUESTIONS OR UPLOAD YOUR OWN TO CREATE QUIZZES, PRACTICE TESTS, AND MORE

With Lecturio's Qbank management, you are in the driver's seat. Create custom tests using Lecturio's questions or your own to get key insight into students' performance.

LEARNING PATHS

WHERE EVERYTHING COMES TOGETHER

Lecturio's learning paths provide step-by-step guidance through all relevant materials in preparation of end-of-course exams.

Fail-safe and very easy to follow!

The screenshot displays a user interface for a learning path titled "Med-Surg End of Course Exams". At the top left, there is a "START" button. Below it, a vertical progress bar shows two blocks: "Block 1: Neurological Disorders — Assessment and Brain Injuries" (100% complete) and "Block 2: Neurological — Guillain-Barré and MS" (49% complete). To the right of the main content, there are three utility buttons: "ADD TO PLANNER", "YOUR PROGRESS 23%" (with a circular progress indicator), and "40/280 Qbank questions". Below these is a "QBANK PERFORMANCE" button.

LEARNING PATH MANAGEMENT

CREATE A CUSTOM LEARNING EXPERIENCE
COMBINING LECTURIO'S CONTENT WITH YOUR OWN
VIDEOS, QUESTIONS, AND EXTERNAL RESOURCES

Lecturio's learning paths give you the flexibility to provide content the way you intended it to be taught. Use Lecturio resources, upload your own, or mix them together. The choice is yours!

The screenshot displays the 'Learning Path Management' interface. At the top, there are two buttons: 'CREATE COLLECTION' and 'IMPORT'. Below this is a table titled 'Learning Path Collections' with the following entries:

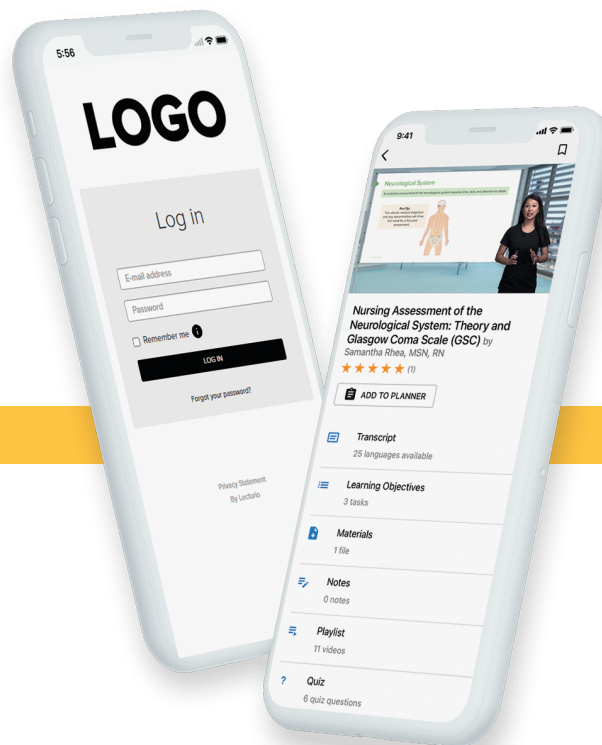

| Collection Name | Type | Actions |
|---------------------|----------|----------------------|
| Anatomy | Custom | MANAGE PATHS |
| Physiology | Custom | MANAGE PATHS |
| End of Course Exams | Imported | MANAGE PATHS, REMOVE |
| Subject Exams | Imported | MANAGE PATHS, REMOVE |

At the bottom of the interface, there is a pagination control showing 'Rows per page: 50' and '1-4 of 4' with navigation arrows.

CUSTOM WEBSITE & APPS

MAKE IT YOURS – WITH YOUR UNIVERSITY’S LOGO AND COLORS

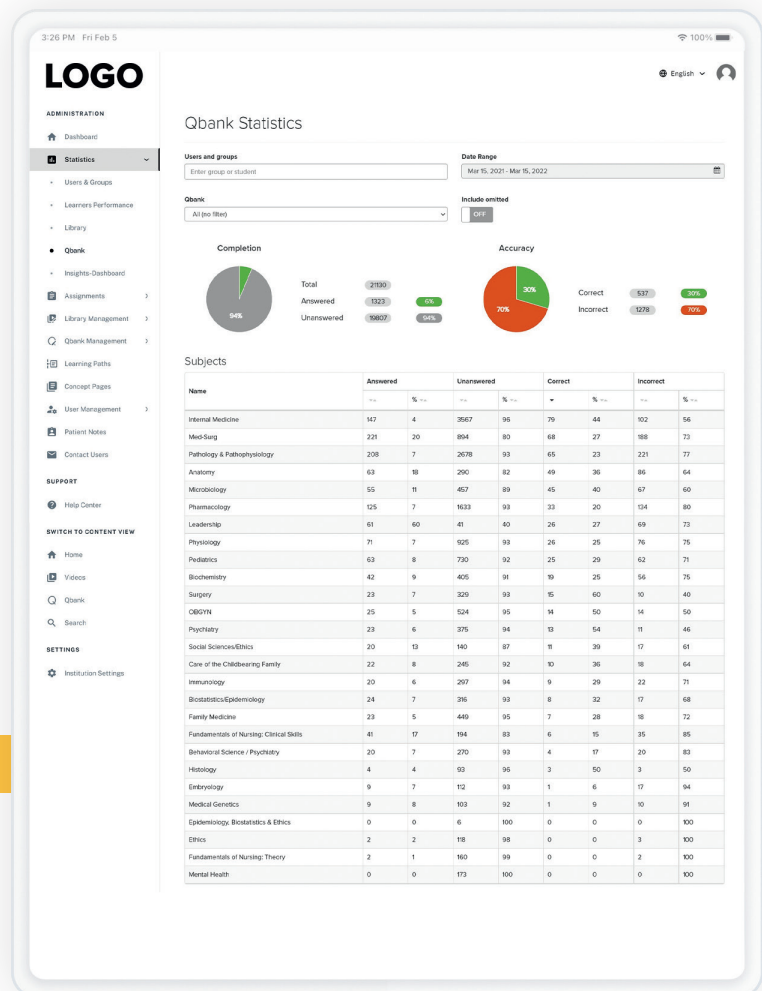

Lecturio grants you access to your very own dedicated Online Academy, complete with your university’s logo and colors. With the Online Academy, instructors can manage users, assign content, and monitor student progress and performance. Optional university custom apps for iOS and Android make this holistic learning experience even more accessible to your students through mobile and offline learning.

DETAILED ANALYTICS

TRACK AND ASSESS STUDENTS' PERFORMANCE

Monitor and assess individual student or group progress to track and improve your own teaching performance. This allows you to see which areas need to be strengthened or where further student support is required.

EXCELLENT TRAINING & SERVICE

YOUR SUCCESS IS OUR PRIORITY

Nursing is a team sport – and so is the implementation of Lecturio for your faculty and students.

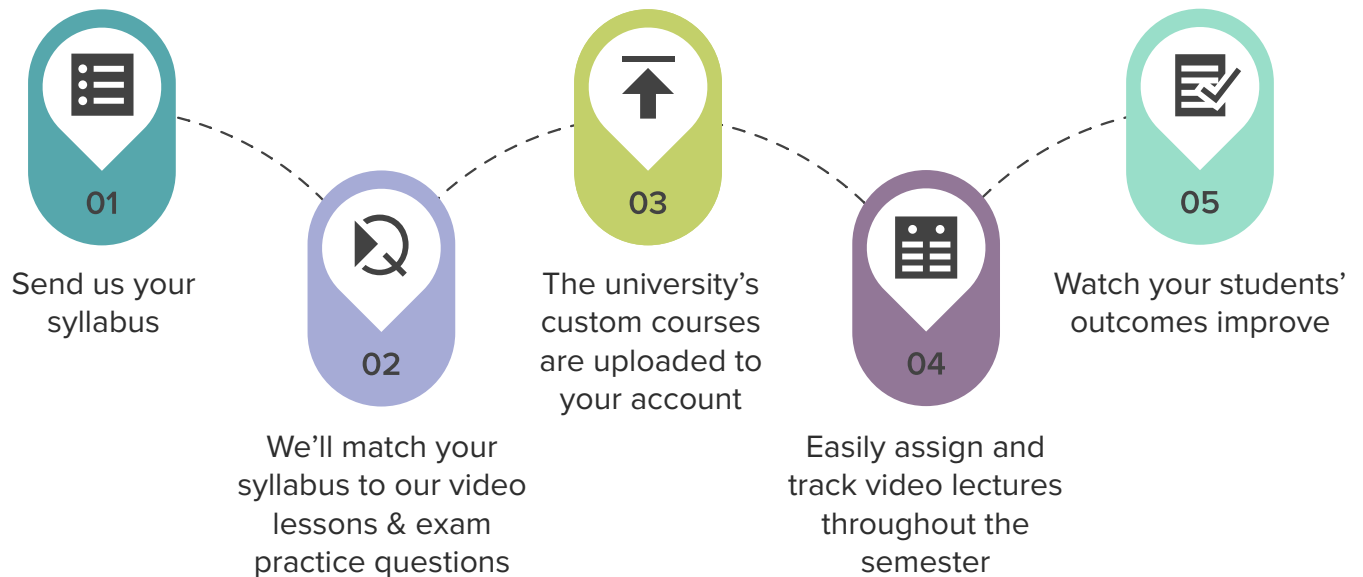

That's why we offer

- Initial and ongoing faculty & student trainings
- Faculty events
- Account review
- Student training
- Regular product and service emails
