

Teaching & Learning Resources

Lecturio's comprehensive content covers all undergraduate nursing school content from Pre-requisites to graduation. Building on learning science, it is designed to maximize recall and conceptual clarity.

- ✓ 2,000+ bite-sized, engaging video lessons
- ✓ 7 minutes average per video
- ✓ 7,100+ smart recall questions
- ✓ 2,800+ Qbank questions
- ✓ Learning Paths
- ✓ iOS and Android Apps

Customization

Focus on Learning Science

Multimedia Videos

- ✓ Students are engaged
- ✓ Closed captioning on videos in 25 languages

Spaced Repetition Questions

- ✓ Included with each video lesson
- ✓ Turns working memory into long term memory
- ✓ Adaptive learning to the individual student

Summary and Smart Notes

- ✓ A summary note window pops up after every video (helps with long-term retention of concepts)
- ✓ All notes are searchable and tied to the videos

Your Partner in Nursing Education

Are you exhausted from trying to provide accessible nursing content for your students?

For most of us, the huge amount of time and energy spent creating voice over PowerPoints and finding quality nursing videos on the internet has left us thinking there must be a better way to teach key content to nursing students.

I promise you there is!

You no longer need to spend hours looking for elusive and reliable YouTube videos on key topics such as starting an IV, acute coronary syndrome, the stages of labor, or any other of the hundreds of topics we teach in nursing school!

Lecturio Nursing has you covered. Our team of practicing nurse educators have developed a wide range of resources for you, including concise video lectures, smart recall quizzes, lecture slides, clinical skills modules, and a Qbank covering all relevant nursing school topics – all of which can be used as part of your overall teaching plan.

Rhonda Lawes, PhD(c), RN
