FAQ

How soon will I have access to my presentations?

In order to place your order on the website, you must create an account and set a password. Once you login, you will have access to stream your recordings as soon as they are available. Most sessions will be available 24-48 hours after they occur. To access your online recordings, you must always log into your account on www.playbackisa.com.

What is the fastest way to access my presentations?

The Playback Now App is the way to keep you on track. Access your lectures anywhere and on any mobile device. The Playback Now App is available in the App Store and Google Play Store, now with the ability to download recordings for offline viewing on your mobile device.

Why can't I find a specific session recording?

It's most likely the session you are looking for is not available because the presenter(s) requested not to be recorded. This is typical of General Sessions and Keynote presentations with professional speakers. Or the session is not available because it was canceled. In rare instances, sessions may not be available due to technical difficulty with the recording.

How long do I have access to my content?

The streaming package gives you access expiring on April 25th, 2026.

What is the difference between streaming and downloading?

Both streaming and downloading require Internet access. Streaming only requires constant Internet access to receive the presentations. Downloaded files are stored on your device for easy access anytime, anywhere. And you own the files!

Can I share the educational content?
