FAQ

How soon will I have access to my presentations?

After you place your order, you will receive an email from Playback NAR which includes your login information to access your Playback account. Once you log in, you will have access to stream or download your recordings as soon as they are available. Most presentations will be available 24–48 hours after they occur. To access your online recordings, you MUST always log in to your account.

When will I have access to the handouts or reference materials?

Presenter handouts will be available online 7–10 days after the conference.

What is the fastest way to access my presentations?

The Playback Now app is the way to keep you on track. Access your lectures anywhere on any mobile device. Go to the App Store and download the Playback Now app today.

Why can't I find a specific session recording?

Program schedules are always subject to last-minute changes not reflected on this brochure. It's most likely the session you are looking for is not available because the presenter(s) requested not to be recorded. This is typical of General presentations and Keynote presentations with professional speakers. Or, the session is not available because it was canceled. In rare instances, presentations may not be available due to technical difficulty with the recording. The General Sessions will be available online for 30 days after the onference.

What is the difference between streaming and downloading?

Both streaming and downloading require internet access. Streaming requires constant internet access to receive the presentations. Downloaded files are stored on your device for easy access anytime, anywhere. And you own the files!

What format are the presentations?

The presentations are MP4 AudioPoint Video. MP4 AudioPoint will play on computers, laptops, and your mobile device. MP4 AudioPoints are video files that feature session audio synced with PowerPoints for a virtual re-creation of the presentation. Unless noted, the file will NOT include the video of the actual presenter, just the PowerPoints. The USB Drive will play in most cars with a USB Port.

What are other advantages to the USB Flash Drive?

T he USB Flash Drive includes the MP3 files, MP4 files, and the handouts, for easy transfer. The Flash Drive is menu based so all you need to do is plug and play. Flash drives will also play MP4 files in most cars with USB inputs.

Why are some recordings "Audio-only"?

In some cases, there are no slides during the live presentation, so the recording will only contain a title slide.

Can I download the entire package?

You may download every presentation one at a time. The USB Package makes moving all the presentations easy with a single copy and paste.

How long do I have online access to my content?

The access included with Premier Access gives you 30 days. The Extended On-Demand and Enhanced Works give you 12 months access.

When will I receive my USB package?

You will receive your USB Package approximately two weeks after the conference.

Can I share the educational content?

This product is licensed for individual or internal office use only. NAR retains the entire ownership of all copyrights for the content.
