FAQ

How long do I have access to my content?

The 6 month streaming package gives you 6 months online access and the USB package gives you twelve months online access. Any downloads and the USB is yours indefinitely.

Can I download the entire package?

You may download every presentation one at a time. The USB Package makes moving all the presentations easy with a single copy and paste.

Why can't I find a specific session recording?

Program schedules are always subject to last minute changes not reflected in this brochure. It's most likely the session you are looking for is not available because the presenter(s) requested not to be recorded. This is typical of General Sessions and Keynote presentations with professional speakers. Or the session is not available because it was canceled. In rare instances, sessions may not be available due to technical difficulty with the recording.

Can I share the educational content?

This product is licensed for individual or internal office use only. NASMM retains the entire ownership of all copyrights for the content. You are not allowed to duplicate or distribute any content or files, for any purposes, outside your immediate offices or internal staff. You are prohibited from making collective or derivative works from the content. You may not assign or sublicense your rights without the prior written permission of NASMM Any attempt by you to assign or sublicense your rights without NASMM's permission shall be void. The materials contained within are protected by copyright pursuant to U.S. copyright laws, international conventions and treaties, and other copyright laws.

What are the other advantages to the USB Flash Drive?

The USB Flash Drive includes the Video MP4 files and available handouts for easy transfer. The Flash Drive is menu based so all you need to do is plug and play.

How soon will I have access to my presentations?

After you place your order, you will receive an e-mail from PlaybackNASMM which includes your login information to access your account. Once you login, you will have access to stream your recordings as soon as they are available. Most sessions will be available 24-48 hours after they occur. To access your online recordings, you must always log into your account.

What is the difference between streaming and downloading?

Both streaming and downloading require Internet access. Streaming only requires constant Internet access to receive the presentations. Downloaded files are stored on your device for easy access anytime and anywhere. And you own the files!

When will I receive my USB package?

You will receive your USB package approximately two weeks after the conference.
