by James Hodgson

BEP records indicate the official high serial number for \$1 Series 1935-B notes was M00648000D. Not all notes from M00000001D to M00648000D are 1935-B notes. Using observed serial numbers as a guide, it appears 216,000 Series 1935-B MD notes were printed from M00432001D to M00648000D. Lower serial number notes are Series 1935-C. Also pictured is a Series 1935-C note with a serial number of M00089129D.

One 1935-B MD block note has been observed in CU condition, plus a small run of AU notes. The pictured 1935-B note is from the run of AU notes.
