

Pass and Seymour

Hospital-Grade Tamper-Resistant Compact Design Receptacles, Back and Side Wire, 15A, 125V, White

Part No. TR8200HW

Hospital-Grade Tamper-Resistant Compact Design Receptacles, Back and Side-Wire, 15A, 125A

Features & Benefits

Impact-resistant nylon face.

One-piece heat-treated triple-wipe brass power contacts.

Easily accessible break-off line contact connecting tab for split circuit wiring.

Corrosion-resistant, zinc-plated steel strap is locked in.

Internal screw-pressure-plate back wire and side wire line terminals accept #14 : #10 AWG copper or copper-clad conductors.

High strength thermoplastic back body.

Auto-ground clip assures positive ground.

Compact design for easy installation.

Tri-drive terminal and mounting screws.

Meets National Electrical Code Tamper-Resistant requirements.

Protects children: patented shutter system helps prevent improper insertion of foreign objects.

.032-inch thick brass, triple-wipe power contacts for lasting retention.

Terminal compartments isolated from each other for positive conductor containment.

For covering patents, see www.legrand.us/patents.
