

The FRONTS CD & Video Release Party at Starlight Room

Press Release

September 13th 2014

For immediate Release

Edmonton Alberta based "The Fronts" to celebrate the launch of their much anticipated self titled **debut Album and Music video for the lead off single 'AWAKE'** along with supporting acts The Unfortunates, My Sister Ocean, and Thompson Highway. The Fronts have been compared to **Muse, Killers and Deftones** and they bring the show along with the reputation. With a self-contained light and video show it is truly spectacular without being overwhelmingly cheesy.

Saturday Sept 13th - Doors at 8pm

STARLITE ROOM

"we don't take ourselves very seriously, but the music is another story.."

The Fronts. 3 men going on boys who are relatively new to the original scene in Edmonton but hardly new to music. With over 6 decades of combined musical experience, the Fronts journey into independant music is the sum total of 3 lifetimes worth of musical ideas, concepts, and collaboration that need to get out before it's too late.

Based out of Edmonton, Alberta, the band consists of David Forster on Vocals and bass, Dominic Lacroix on Vocals & guitars, and Troy Hrushka on drums.

Atmospheric, melodic, and driven by two powerhouse vocalists, this 3 piece delivers a near impossible depth of sonic delivery and song writing. Indeed, this is not the work of any 'new' band you've ever hear.

The Single:

"Awake" - Backed by a professionally shot video through Indie production suite "Random Path", the first Fronts single has already seen over 1200 views on popular video sharing website "YouTube" just 14 days into it' launch while sales through digital retailers iTunes & CDBaby continue to climb.

**"...You just blew us away from start till the end.
Truly fantastic! Thank you"**

The Live Show:

In just 6 short months, The Front's boast an impressive live show track record that has included opening slots for National touring artists "**The Kin**" as well as local radio station **Sonic 102.9's "Band of the Month" bill with fellow Indie rockers "Death By Robot"** and everything in between. To put it briefly, the Fronts are making up ground *quickly*.

Professionally delivered with charisma, a light hearted, tongue in cheek attitude, and complimented by a **state of the art light show**, the Front's live performances have garnered critical acclaim for good reason. This event will sell out - grab your tickets today and see you there!
