

## CARLYNE FOURNIER - FULL BIO

Carlyne is a New England based bilingual actress, voice over artist, and producer who loves what she does. Born and raised on the outskirts of Montreal, Carlyne has had a passion for film since she was eight years old - already then attending double feature presentations at local cinemas.

Over the last couple of years, Carlyne has gained over 60 credits in the film and production industry, and was the recipient of the "Best Supporting Actress" award at the 2012 Massachusetts Independent Film Festival for her role in "My Pretty Maura".

Some of her most exciting projects include: producing the award winning Music Video "Take my Keys" which promotes anti-teen drunk driving; "Spin The Plate" where she played Barbara Anderson - a tough defense attorney; "Justice is Mind" for her co-starring role as Dr. Pullman; and "I am Monroe" as the paranoid schizophrenic Gladys Baker.

But Carlyne's true passion lies with films that shed light on social issues in hopes of provoking social change. She ultimately wishes to combine her creative craft with the power of media to help educate and promote global awareness on issues close to her heart. As such, between 2013-2015 Carlyne was involved - as an actor or producer - in projects representing a variety of causes: "Remember When" a film about Alzheimer's disease and Care Giving; "Spin The Plate" a film about children sexual abuse; "Silence" a feature exploring the tremendous impact of texting & social media on our lives; "Double Zero" a short film about teen Anorexia; "Theory of Conflict" a film on racial & ethnicity clashes amongst college students; and of course "Take my Keys" .

In the coming year, Carlyne is most excited about working with On Edge Productions & be part of CAN'T GO HOME, a Boston based TV series about gangsters on which she served as associate producer and actor.

When not working on improving her craft with her acting coaches, Carlyne spends all her quality time with her family either in Quebec or at home by the ocean in Massachusetts.
