

TruePlanning® 2016 SR1 Update – Download/Install Instructions

For users **without** an existing installation of TruePlanning® 2016 SR1:

1. Please contact us at 1-800-43-PRICE (77423) or help@pricesystems.com for further information.

For users **with** an existing installation of TruePlanning® 2016 SR1:

1. Download the 16.1 update *.exe file, corresponding to your version of Microsoft® Office installed, at the following link:
 - <https://www.pricesystems.com/Resources/Product-Downloads>
2. Close all TruePlanning® applications and run the update *.exe file.
3. Click “Next” through the dialogs until complete.
4. No licensing changes will be needed to continue using TruePlanning®.

*****NOTE:** The first time TruePlanning® is launched after install or update, it will take noticeably longer than any successive launch due to the creation (or re-creation) of global data files. Do not restart the computer or otherwise prematurely end the application process during this time or it may corrupt those global data files.***

If your organization is unable to access the update links, please contact us at 1-800-43-PRICE (77423) or help@pricesystems.com to receive physical media with their contents.
