The IHDS PHS Certification Year 3: PHS Practitioner

The Primary Health System (PHS) is a revolutionary approach to well being. PHS was first introduced by Ra Uru Hu in April 2003. As empowering as Human Design is for the Personality Passenger, PHS is the awakening key for the Design Vehicle.

PHS is the result of years of ground laying work in the sub-structure of the Line. The PHS Practitioner Program Year Three focuses practitioner projects, and an introduction to holistic analysis and Variables.

The PHS Primary Health System Analyst program is open to any student who has completed PHS Analyst Year One program.

The IHDS is the official Human Design and Global Incarnation Index certifying and licensing authority. The IHDS offers programs leading to official certification in both teaching and practice.

The PHS Primary Health System Practitioner is such a credit program. To complete this program for certification, students are required to complete the entire program of three years.

This book is a transcript of the third year, first semester originally taught in Fall of 2007.
