RAVE ABCs

The Three Foundations of Human Design reveals its mechanics

- A. The dual, energetic structure built into life (Red and Black)
 - B. The movement through the structure (Circuits and Channels)
 - C. The structure of the hexagram itself (Lines)
- the movement (Circuits and Channels) we need to understand they're rooted (the Centers).

THE MUTATION FROM 7 TO 9 CENTERS

Strategy & Authority helps us integrate into the 9 Centers, integrate into the environment. It helps move us away from our Ajna-centered life and a reveals a new way to be in the world.

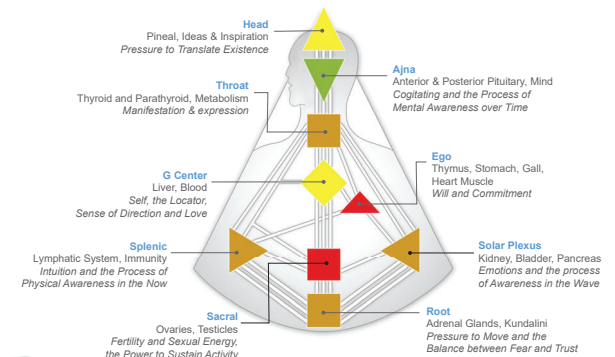

MOVEMENT OF ENERGY THRU THE BODYGRAPH

ALL ROADS LEAD TO THE THROAT

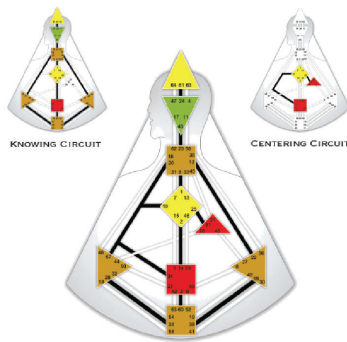

THE BIOLOGY AND FUNCTIONS OF THE 9 CENTERS

When you don't operate according to your Strategy and Authority, you put your health in jeopardy

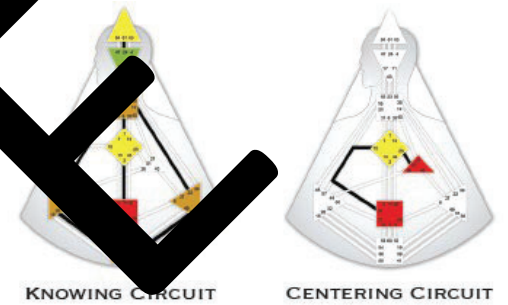

SPECIFIC CIRCUITS

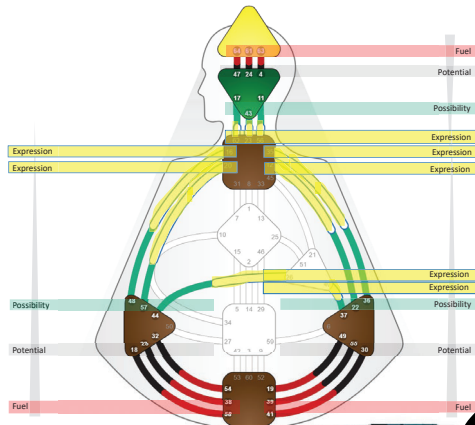

- Greatest number of gates
- Mutative potential
- Everyone has their own uniqueness (most at least have a gate)
- Mutation moves us into new directions
- Mutation happens in the pulse...the now...the place between thoughts
- Not based on facts or experience, out of seemingly nowhere
- "Knowing" can have a mutative effect on you or someone else
- I don't know and then suddenly "I know"
- Individuality empowers as an example, by being an example
- Not necessarily concerned with the other
- Designed to be deaf to the world from outside influence
- Melancholy—purpose is create a design and empower the new
- Individuals are outsiders
- No mutation, an evolution. Empowerment

INDIVIDUAL CIRCUIT INCLUDES THE KNOWING CIRCUIT & THE CENTERING CIRCUIT

FIELDS OF AWARENESS

HOUSE METAPHOR

1. The Foundation
2. 1st Floor. Unaware of the situation, like you're naked on parade. Surprised by the things about you - your "nakedness."
3. Transition and mutation...the foundation gets up and makes the transition.
4. Mutation of the 2nd floor (see the channel)
5. It knows it's being watched, once projected on there are projections. It's very aware of it.
6. Not really interested in the foundation of the next house. Disconnected from the house. Its view is the bigger view. It sees the whole circuit.
