Company profile

Nestled in the heart of the Hudson Valley, The Cocktail Architect was founded by rockstar mixologist Yusef Austin and certified Ayurveda spicologist Nandini Austin, a dynamic duo who met while working in NYC's luxury boutique hospitality industry. Their journey began amidst global travels and epicurean adventures, with a vision to create "sex in a glass" cocktails for every type of event imaginable.

From high-profile launches and intimate celebrity gatherings, to corporate classes, they traveled the world together consulting for restaurateurs and hoteliers, boosting revenues and designing unique menus. As brand ambassadors for spirit brands, their global experiences have enriched their mixology expertise, drawing inspiration from diverse cultures and their own rich heritage.

Harnessing the alchemy of spices, they meticulously design cocktails that ignite the senses and spark conversation to foster connection and cultivate moments of discovery. While combining their decades of hospitality expertise they created their love child: a premium artisan mixer line that embodies their core values of authenticity, creativity, culture, connection, and empowerment. Their vision is to "architect" experiences powered by spice.

The essence of The Cocktail Architect lies in the celebration and exploration of life - an ode to seizing the moment and sharing its richness. Beyond mere libations, Yusef and Nandini not only offer premium mixers but their unwavering reputation in Luxury lifestyle ensures that every sip embodies a moment of pure indulgence in the art of refined living.
