HOW IT WORKS

Aura photography is a fascinating technique that captures the colors of your energy field or aura, providing a visual representation of your emotional and spiritual state. This intriguing practice blends elements of spirituality and science, creating a unique experience that appeals to a wide audience.

Aura photography involves using a specialized camera that is connected to hand sensors measuring the bioelectric feedback in the body. These sensors are designed to detect electrical impulses and temperature changes, which are then translated into vivid colors by the camera system. Each color corresponds to different chakras, traits and emotions, such as blue (third eye chakra) indicating calmness and red (root chakra) representing energy or passion.

From a scientific viewpoint, aura photography is based on the concept of biofeedback technology. Sensors measure physiological parameters like electrical conductivity and temperature, which can reflect a person's emotional and physical state. These readings are then algorithmically converted into colors on a Polaroid photograph, showing the energy radiated from the person.

HOW TO BOOK

- 50% deposit required to reserve date and time
- Remaining balance due the day of the event
- Option to book hourly, OR custom price/photo (not both)
- 2 hour minimum to book
- Email us at booking@igniteyouraura.com to make your reservation

HOW TO BOOK

Lighting & Power: Our camera is light-sensitive, so we require access to our 5x5 ft pop-up tent or placement in a dim space (no strong natural light or bright fluorescent lighting). Access to power is required, preferably a dedicated wall outlet.

Check-In: We bring a 4x2 ft table for guest check-in. If drinks are being served, we recommend a nearby cocktail table, as guests will need both hands available.

Readings Add-On: For readings, please provide either two chairs per reader or allow space for our tables (4x4 ft footprint each).

Outdoor Events: We have very limited capacity for outdoor setups. Please confirm with us prior to booking.
